**After realizing to save 4.4 % on an avarage...**

**We determined our targets for the year 2011.**

To maintain a high level of sensibility for the enviroment and energy,to keep waste paper container for each department,to support paper recycling ,subject of waste management to continue to send our waste product to the licensed waste recycling centers which founded according to''regulations of dangerous waste control''published by Ministry of Enviroment and forest numbered 22387 on 27 August 1995 Besides''Regulations of chemical waste product and enviroment'' law numbered 2872 issued by Ministry of Enviroment and Forest

Also to support non-governmental organizations, to contribute social responsibility project like "Golden Mortar" which we gain award in 2010, in branches of the service profession because of the our transfer (% 3) from the price which received from the Pharmacist, preferred us to the Faculty of Pharmacy Fund

To educate leaders about the subject of the hand hygiene and body hygiene, because of to support 'Unesco's world hand washing day on 15 October' which we think it will make the peak by making cooperation with especially schools in the scope of the our Project called "Hygiene must be for health"

And to do same things against hospital infection by making cooperation with our family doctors, hospitals and Ministry of Health

**For anti-corruption;**

To join action about the decided subject with the companies signed Global Compact, is our another 2011 target.

**In conclusion;** As we have promised and determined on our COP report, we will fulfill our duty for every subject.

**Wish to share with you the good developments about our R & D Project which will be a big progress for our country, on our COP 2011 ...**
