Levallois-Perret, November 25th 2011

Dear Mr. Secretary-General,

Since 2009, the Altran group has supported the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we expressed our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company.

In regards with the Rio+20 forum, I want to restate our engagement for a sustainable development and, with this letter, reassert our commitment to the ten principles of the Global Compact.

We recognize that one of our requirements for participating in the Global Compact is the annual submission of a Communication on Progress (COP). I send you hereby documents that describes our company's efforts to implement the ten principles from April 2009 till December 2010. The Sustainable Development Report and its Supplement, communicated to all our stakeholders on our web site, present our progress, the actions taken in all our countries and the Group's performance indicators.

We will be able to present all our progress for 2011 in the beginning of 2012.

Sincerely yours,

Philippe Salle
Chairman and Chief Executive, Altran
