Adjustment Request for Franke Artemis Group's Communication on Progress

Dear Global Compact Office,
Dear Stakeholders,

Franke Artemis Group signed up to the UN Global Compact on 11 January 2011. We are very committed to the Global Compact and recognize that a key requirement for participation in the initiative is the annual preparation and submission of a Communication on Progress (COP).

We plan to present our first COP as part of our integrated Annual Report 2011. This enables us to demonstrate the linkages between our company's financial performance and the social, environmental and economic context within which we operate.

We kindly ask you for a one-time adjustment of our company's COP submission deadline to align it with the cycle of our financial reporting. We will submit the Franke Artemis Group's COP to the Global Compact website by 31 May 2012 at the latest.

Kind regards,

A handwritten signature in blue ink, appearing to read 'M. Pieper'.
