Brief Description of Nature of Business

OUT-2 Design a multidisciplinary design practice providing clients with international expertise in Briefing, Architecture, Interior Design & Integrated Workplace Solutions.

Central to our design philosophy is our belief that the physical environments in which we live, work, learn and play have a direct and tangible influence on the quality of our lives.

Driven by the pursuit of quality, we focus our energy on creating sustainable solutions that are responsive to our clients' needs whilst improving the wellbeing of all who experience our work.

Availability of this COP

This COP is available on line at www.unglobalcompact.org and is available for on our public website. The document forms part of our Company Manual and selected content is also included in our Company Profile.

Statement of support

OUT-2 Design is committed to supporting the UN Global Compact and upholding its 10 stated principals as documented hereafter.

We strive to do this wherever possible within our sphere of influence by:

- Ensuring that our own activities serve as an exemplar to others in our industry; and by,
- Working together with our Clients, Suppliers and Contractors to educate and inform them such that they can improve their own performance and compliance.

Aligning our company goals and objectives with these stated principals and pursuing continuous improvement in our performance against them delivers benefits in three key areas for our business:

1. **AWARENESS:** Only by being more aware and better informed can we expect change to take place. The UN Global Compact provides us with a means by which we are able to build awareness through our **Staff**, our **Clients** and finally the many suppliers, contractors and contributors that are involved in our **Projects**.
2. **LEADERSHIP:** Industry leadership is a core corporate value which extends not only to our core competencies of briefing, design and workplace change management, but also to social and environmental responsibility. The UN Global Compact provides us with both material resources and a network on like-minded people and organisations that enable us to improve our knowledge, performance and our actions.

2012-01-16
Page 2 of 5

3. **ADVOCACY:** To lead is admirable, but to enable others to change is the key to long-term sustainable change. The UN Global Compact strengthens the foundation that enables us to be an informed and responsible advocate for Corporate Social and Environmental Responsibility and in particular performance against the 10 key principals defined by the UNGC.

In summary, the UN Global Compact provides us with an independent, reputable and rational framework to ensure that integrity, responsibility and sustainability remain at the core of our business activities.

Andrew Currie
Managing Director

A. HUMAN RIGHTS

Principle 1: Businesses should support and respect the protection of internationally proclaimed human rights

Principle 2: Businesses should ensure that they are not complicit in human rights abuses

First and foremost OUT-2 Design is committed to full compliance with local labour law and regulations. Beyond this we have developed policies and programs to ensure that our staff and our actions actively support human rights within and outside our Company's activities. Our actions include:

- Mandatory compliance with applicable local labour laws,
- Our own workplace conditions and employment terms are enhanced beyond local regulatory requirements to provide a best-in-class workplace for all staff,
- Mandatory sighting of all original documentation including qualifications, licenses etc.,
- Employment policies are documented and issued to all staff immediately upon commencement of employment. They are further explained through our mandatory induction program and through our program of continuous learning and training. Our documented policies include:
 - Equal Opportunity,
 - Discrimination,
 - Business Ethics & Conduct,
 - Corruption,
 - Personal Relationships in the Workplace,
 - Conflicts of Interest,
 - Confidentiality,
 - Equal Access and opportunities for staff with disabilities,
- Our best-in-class employment conditions where recognised through the award of the ABA National Business Awards, 'Best Employer' Award,
- Beyond our own operations we actively seek to inform and educate our suppliers and contractors through:
 - Auditing of supplier / contractor factories and work conditions,
 - Advocacy of improved Human and Labour Rights within our industry through speaking engagements and conferences,
 - Support of NGO's and charities that work in these areas.

B. LABOR RIGHTS

Principle 3: Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining

Principle 4: Businesses should support the elimination of all forms of forced and compulsory labour

Principle 5: Business should support the effective abolition of child labour.

OUT-2 Design strives to create a safe and supportive workplace where staff are encouraged to discuss and discuss and contribute towards continuous improvement.

- Multiple avenues available for staff to report concerns and/or problems both internally and externally, including:
 - Confidential staff satisfaction surveys,
 - Confidential client satisfaction surveys,
 - Formal client, contractor and supplier review process carried out upon completion of each project
 - Confidential comments and suggestions box monitored and responded to monthly.
- Educating staff on likely areas of abuse within our sphere of influence,
- Documented policies requiring staff to report all incidents and/or abuses,
- Auditing of supplier / contractor factories and work conditions,
- Authority to question contractors and/or suppliers on suspected abuses (eg. age of workers etc.),
- Authority to stop-works (of contractors etc.) where unsafe work practices are observed
- Advocacy of improved Human and Labour Rights within our industry through speaking engagements and conferences,
- Support of NGO's and charities who work in these areas.

Principle 6: Businesses should support the elimination of discrimination in respect of employment and occupation

OUT-2 Design strictly complies with all applicable laws and regulations with respect to labourers' employment and rights, working conditions, health and safety, wages and benefits, working hours, anti-discrimination, child labour, full time fair employment, equal opportunities for all employees within a working environment that is safe, supportive, collaborative, friendly and professional.

The personal and professional growth and well-being of our people is a stated goal and we structure our operations to encourage and facilitate this. Our policies and benefits include:

- Staff career-path planning and continuous professional development (CPD),
- Weekly training workshops for all staff,
- Language classes,
- Additional paid leave for personal issues,
- Access to additional leave for education & self development,
- Social, medical, accident and workers compensation insurances from commencement of employment,
- Full private medical insurance for full-time staff,
- Professional Indemnity Insurance,
- Annual strategic review process that includes policies and workplace conditions.

Furthermore, OUT-2 Design is registered with the Architects Accreditation Council of Australia (AACA) and we operate in compliance with their defined professional standards.

C. ENVIRONMENT

Principle 7: Businesses should support a precautionary approach to environmental challenges

Principle 8: Businesses should undertake initiatives to promote greater environmental responsibilities

Principle 9: Businesses should encourage the development and diffusion of environmentally friendly technologies

Since establishing OUT-2 Design in 2004, we have been considered a pioneer and a leader in environmental responsibility; both in terms of our own operations and in the projects that we have completed. Our actions include:

Our Operations:

- First design firm in Asia to receive WWF Green Office Certification,
- Established and implemented an Environmental Management System (EMS) including:
 - Staff Education,
 - Consumption monitoring,
 - Waste minimisation policies,
 - Electricity minimisation policies,
 - Waste minimisation including the installation and use of water-saving devices,
 - Recycling,
 - Use of recycled paper for company stationary,
 - Policies supporting electronic issuance of documents in preference to hard-copy, Eco-rated office equipment,
 - Resource minimisation (shared stationary etc.),
 - Yearly auditing & improvement processes.

Our Projects & Clients:

Whilst our projects are mostly driven by Client requirements, we maintain a policy of encouraging and suggesting improved environmental performance wherever possible. We do this through:

- Continuous education of our own staff to enable stewardship and leadership,
- Client education,
- Actively participating activities within our own industry and further into the community:
 - Organiser of the Lean & Green Environmental conference in Vietnam,
 - Founding member of the Vietnam Green Building Council (VGBC),
 - Attendance at major conferences and seminars,
 - Speaking at major conferences and seminars.
- Project-specific achievements include:
 - Responsible for the Briefing & Design of Vietnam's first 3 buildings to be designed and built to international environmental standards,
 - Responsible for the Briefing & Design of Vietnam's first interior-fitout projects to be designed and built to international environmental standards; including the use of no/low VOC materials throughout,
 - Involved in the first Zero net Energy Building (ZEB) project in Vietnam.

Furthermore we are regularly published in and consulted for article and publications regarding environmental matters in Vietnam. We also support a number of NGO's and charities who's activities are focussed in this area.

D. ANTI-CORRUPTION

Principle 10: Businesses should work against corruption in all its forms including extortion and bribery.

Since establishing our offices in Vietnam in 2004, our operational model and services have been structured to

2012-01-16
Page 5 of 5

support full transparency in order to minimise the risk of corruption. When dealing with contractors and suppliers we require full disclosure of costs and do our own cost-benchmarking to ensure that pricing is fair and competitive.

Our policies include:

- Identification of general and project-specific risks,
- Mandatory reporting of any confirmed or suspected breaches,
- Acceptance of gifts and benefits including traditional Lunar New Year and Christmas gifts,
- Education on how to deal with risks and attempted breaches,
- Consequences for both breaches and on-reporting of breaches.
