12th January 2012

COP Team
United Nations Global Compact

To whom it may concern:

Indupalma is very proud to be part of the Global Compact as an active member. We are continuously looking after the 10 principles within our communities, our employees and Colombia as a whole. This year we decided for the first time to follow the GRI methodology as a guide to organize our information on sustainable development and to go one step further on our duties with our stakeholders. However, in order to adjust to these changes we noticed the importance of coordinating all the information given by the company.

In our last COP we presented the information for the period December 2009 until June 2010 but the fiscal year in Colombia ends up in December and each unit in the company gives its own performance reports at the end of the calendar year. So we decided it would make sense to wait to get all the information up until December 2011 for the period July 2010 until December 2011 and start doing it yearly with the information from January until December from now on.

In order to make the adjustments to the GRI methodology, to simplify our internal search of the material requested and to make sure the information provided is as organized and trustful as possible we kindly request an extension of our COP's due date (2d March 2012).

We look forward your answer and hopefully your kind help in this matter.

Sincerely,

Juliana Del Castillo Plata
Management Coordinator
