Although we are experiencing a slight decrease on our room nights due to the general economical crisis, we never gave up on our principles. We keep on employing our considerable people and we still give opportunities to young employees to join our team, respecting their rights and needs at all times.

On the other hand, we continue to invest on protecting the environment by reducing the the energy losses, saving the water, recycling the wastes, cleaning our shores, keeping the noise emissions on low numbers.

In recognition that the submission of a COP is a key requirement for participation in UN-GLOBAL CONTACT, we here-below post our COP 's for 2011. We support public accountability and transparency and therefore we commit ourselves in reporting on progress every year hereafter, according to the UN GLOBAL COMPACT COP policy.

Yours Sincerely,
