

2012/03/23

**Grace Letter from Holmen AB, Sweden**

The reporting in the Holmen annual report on financial management, environmental responsibility, employees and other stakeholders will be supplemented on the Holmen website by a detailed account of Holmen's work on sustainability. This includes descriptions of environmental work in the various business areas, statistical tables and a complete GRI register. Together this will constitute Holmen's sustainability reporting.

The deadline for submitting the COP from Holmen is 2012/03/25. Holmen is working with a new set up for the sustainability reporting on the webpage. Due to some technical difficulties in this process Holmen has to postpone the due date for the COP.

The COP will be submitted at 2012/04/10 at the latest.

Sincerely yours

Lars Strömberg, Holmen AB  
Director for Sustainable and Environmental Affairs
