

XXXXXXXXXX

Att.: The CSR responsible

Næstved, 8<sup>th</sup> August 2011

Dear Sir/Madam,

D-S Sikkerhedsudstyr A/S has for more than 25 years been working actively with subjects related to CSR.

We have introduced environmentally friendly and less harmful materials/components in our production as well as developed new fibres, for example substituting asbestos in connection with protecting people and sensitive/expensive equipment against fire, sparks, radiant heat etc.

Our Code of Conduct has since 2010 been formalised and is now based on the 10 principles in the United Nations Global Compact concerning Human Rights, Labour, Environment and Anti-Corruption.

We expect that our suppliers respect this and hereby request you to confirm that and furnish us with xx's policy concerning CSR.

Thanks in advance,  
D-S Sikkerhedsudstyr A/S

Poul Erik Bæk

P.S.: We will appreciate your feedback at your earliest convenience and before the end of our fiscal year (i.e. 30st September 2011) !
