

Copenhagen 30.04.2012

Due to recent fortunate circumstances, where Sticks'n'Sushi has been so lucky to be able to open two new restaurants, we have not had the time to put together our due COP before the expiration of our deadline.

Sticks'n'Sushi is a small company, with an accordingly small administration. This means that it is on the shoulders of few people to conduct all the administrative work associated with opening new restaurants. Therefore our CRS responsible, who also has other responsibilities at Sticks'n'Sushi, has had to prioritize not writing our COP and instead do his part in the process of opening the two restaurants.

Slowly things have begun slowing down again, and we therefore once again have time to pick up on our under-prioritized tasks.

We therefore expect to be able to hand in our COP in two months from the date of this letter.

Sticks'n'Sushi is very committed to the Global Compact and its ten principles, which shows in the fact, that we have based our Code of Conduct hereon. We therefore hope to be able to continue our commitment and hand in a good and extensive COP stating our work to live up to the ten principles in our daily operations.

Kindest regards,
Jakob Gaard Nielsen
CSR Manager, Sticks'n'Sushi
