

## **Communication on Progress 2011 – United Nations Global Compact**

**Brasov, 02.05.2012**

### **Human Rights**

One of the most important goals of our company is to respect international human rights and to continuously improve our social performance.

The main policies and management systems that support human rights are:

- *Quality and environment policy of the company:* Romradiatoare S.A. ensures occupational safety and health at its workplaces by minimizing and isolating risks for employees, contractors and visitors.
- *Collective labour agreement:* This agreement is aimed to promote and implement equitable labour relations as to enable a profitable activity, ensure social protection for employees and avoid the appearance of collective labour conflicts. In our company there are regular meeting between employee's representatives and employer's representatives as to find solutions regarding social and professional aspects.
- *Health and safety procedure:* Our company respects the national and international laws regarding healthy and safe working conditions.
- *Code of conduct:* Every business contract issued by Romradiatoare S.A. has an appendix named code of conduct which binds the business partners (suppliers, contractors etc.) to respect the human and labour rights.

The most important practical activities undertaken to support human rights are:

- *Providing safe and healthy human conditions.* All the employees have protection equipments. In the past year there were not registered any work-related incidents.
- *Providing access to basic health, education and housing for workers and their families.*  
All the employees have access to our own physician office, which is open daily and where they can benefit of free consultation and medical treatments. Romradiatoare provides for all employees free access to cold and hot drinks through the vending machines located in each workshop.  
Our company offers internal and external trainings in many different areas such as: sales, project management, quality systems, environment, IT etc. Our company has the possibility to offer housing for workers and their families. In past year one of our employees has benefited of this possibility.
- *Providing trainings on health and safety aspects.* The employees benefit of trainings on health and safety aspects since beginning to work in the company untill the contractual agreement ends.

Table No.1 shows our progress in the last years and also the target for 2012 regarding human rights issues. Regarding trainings, the percent increase with 7,2% in 2011 since 2010. The trainings are analyzed in Table No.1., dealt with quality & environment, health and safety, emergency situations. Regarding trainings, for 2012, our objective is to achieve a percent of 108%. The percent of absenteeism decreased from 30% in 2010 at 16% in 2011 and has to reach 12% in 2012. The volunteer fluctuation of employees has decreased at 0,9% in 2011 and has to reach 0,8% in 2012.

Table No.1: Human rights indicators

HUMAN RIGHTS	INDICATOR	2010	2011	2012 (target)
<b>Trainings</b>	Hours planned/hours achieved	99,4%	106,6%	108%
<b>Absenteeism</b>	% from total working hours	30%	16%	12%

## Environment

Romradiatoare S.A. commits to protect the environment by preventing pollution through promoting and implementing the best technologies in its processes.

The main policies and management systems that support environment rights are:

- *Quality and environment policy of the company.* Romradiatoare has an open communication with all stakeholders about its environment policy. Furthermore Romradiatoare has implemented the best case practices for the new manufacturing technologies. The design of the products and processes are made taking into account the exhaustible energy resources. Romradiatoare goal is to improve the quality of life by increasing the green space within the company. All these targets are internal monitored through the Management Analysis and external monitored through ISO 14001:2005 Audits.
- *Code of conduct.* Every business contract issued by Romradiatoare S.A. has an appendix named code of conduct which binds the business partners (suppliers, contractors etc.) to respect the environment rights.

The most important goals for 2012 concerning environment rights are:

- 5% decrease of electricity consumption / unit of product
- 10% decrease of gas consumption / unit of product
- Maintaining the quality of wastewater
- Minimum 60% recycling of the carton introduced on domestic market

Tables No. 3, 4 and 5 shows our progress in the last years regarding environment rights issues. Energy consumption has decreased in 2011 with 6,81% compared with 2010. Gas consumption has decreased with 15,26% in 2011 compared with 2010.

pH maintained its value in 2011 between the minimum parameter (6,5%) and the maximum parameter (8,5) and achieved a value of 7,25.

Regarding paper and cardboard, the recycled quantity decreased from 62,24% in 2010 to 60,00% in 2011 (minimum quantity accepted).

## Anti-corruption

Romradiatoare S.A. complies with national legislation against corruption and one of the company goals is to maintain its integrity.

The main policies and management systems that support anti-corruption rights are:

- *Code of conduct.* Every business contract issued by Romradiatoare S.A. has an appendix named code of conduct which binds the business partners (suppliers, contractors etc.) to respect the anti-corruption rights.

The most important practical activities undertaken to support anti-corruption rights are:

- *Providing trainings for employees.* Our employees behave honestly, are trustworthy and set a good example. Furthermore they use the resources of the company in the best interest of Romradiatoare S.A., and do not misuse these resources. Our employees do not pay or accept bribes. As employees, they make a clear distinction between the interests of our company and their private interests, and avoid possible conflicts of interest. They do not accept gifts, invitations or other benefits which could contradict this principle.

Table No. 6 shows that all the employees were trained on anti-corruption rights in 2010 and 2012. Our goal is to maintain this level of trainings on anti-corruption aspects.

Table No. 6: Anti-corruption rights indicators

ANTI – CORRUPTION RIGHTS	INDICATOR	2010	2011	2012 (target)
Employees trained on anti-corruption aspects	% from total employees	100%	100%	100%
