

Dear Sirs/Madam,

life:) is the third largest mobile services operator in Ukraine and one of the leading companies in terms of CSR in the country. We are Global Compact members since 2007 and are currently working at drawing our third COP report.

However since the company recently conducted a large-scale rebranding which fully changed its visual style, logo and slogan – life:) currently finishes its renewed brand-book and this prevents us from submitting our social report in the mentioned dead-line. As a result, we are kindly asking you to postpone life:) COP delivery up to July, 15th.

Kind regards,

Oksana Rudiuk

life:) External and Corporate Relations Division Head
