Dear Sir/Madam,

We are writing to you with regards to our reporting obligation as a Global Compact member company.

We are in the process of issuing our first sustainability report in accordance with the GRI guidelines and it requires time and effort to collect all the necessary information and process it. At this stage of the year we are finalizing the collection of sustainability data which will only be fully available at the end of July. We assume that our sustainability report will be available in autumn 2012.

Therefore we would be most grateful if you could grant us a grace period which will allow us to finish collecting the data, analyse it properly and report on it within our sustainability report.

Once the sustainability report is ready we will submit it to Global Compact with no further delay.

Yours sincerely,

Joanna Maderska
