

Report of Year 2011-2012

In 2011, Ruixin invested 8 million RMB to process a set of technical reconstruction project, in the mean time to improve the enterprise benefit, to relieve the labor strength, to reduce sewage discharge, and also get significant effect on energy saving. It can be divided into two parts.

Part 1: Built two automatic CNC production lines, manipulator load and unload material instead of manpower; Built three semi-automatic production units, the part transferred by automatic conveyor belt instead of carried by labor; Built automatic succession passing production line for washing and drying .

Part 2: Purchased a set of equipment for waste water treatment, improved the waste water quality obviously (Data as following):

No.	Index	Tianjin City Sewage Third Standard	Data of Ruixin in 2011	Data of Ruixin in 2012	Unit
1	PH	6-9	7.50	7.50	
2	Chemical Oxygen Demand CODcr	500	510	410	Mg/L
3	5days for biochemical oxygen demand BOD ₅	300	216	190	Mg/L
4	Suspended Matter SS	400	300	240	Mg/L
5	total phosphorus	3	0.5	0.5	Mg/L
6	Ammonia Nitrogen NH ₃ -H	35	33	13	Mg/L
