29,000 SODEXO MANAGERS TRAINED ON THE BETTER TOMORROW PLAN

To improve the knowledge of the Better Tomorrow Plan, Sodexo has created an innovative e-learning tool. Now available in 10 language versions, nearly 29,000 managers from 64 countries have already been trained (71% of our management population).

> [Discover the e-learning module in your language](#)

Many other rapid learning tools have been developed to complement the expertise of our teams (Sustainable Seafood, Palm Oil, Local Community Development...).

Actively promote Nutrition, Health and Wellness Less Salt – Slovenia

Sodexo follows the implementation of a plan to reduce the salt intake on a nationwide basis with objectives by 2020. Since 2011, the Sodexo "Less Salt" program provides and promotes food prepared with less salt and educates consumers about salt use and the potential health risks.

NUTRITION and HEALTH

My good resolution: 30 minutes of brisk walking every day

Commit to Local Communities

Team Fundraising Efforts – Australia

Since 2006, Sodexo has been operating the "Symmetry" Health and Wellbeing Program. Sodexo helps his clients to improve their local communities' relationships through fundraising activities.

Protect the Environment

Triple Sustainability Certification - France

At Marseille in France, Sodexo's strong commitment for the environment has led to major recognitions. In 2011, the Central Kitchen for the Education segment (50,000 meals prepared every day) has received triple certification: ISO 9001, 14001 and 22000.
