CHAIRMAN'S COMMITMENT

It is with great pleasure that I present to you EGYTRANS 3rd Communication on Progress Report, prepared according to the GRI guidelines, in its updated version the G3. Communication of this information shows EGYTRANS commitment to transparency in our activities and the improvement of internal sustainability management, in which we will continue to strongly invest in the coming years.

The issuing of our 3rd COP report has posed both challenges and opportunities for EGYTRANS. This report, which addresses the company's economic, environmental, and social performance, covers the period from July 2011 till July 2012 – a time of intense internal and external transformation for our company and our country. It has been a tough year for our businesses, our country and in fact the whole of the Middle East and North Africa region. The Arab Spring has brought a lot of changes to the whole community, and it opened our eyes to issues that we did not really consider in the past.

The challenges arise from the complexity and breadth of sustainability issues. This report covers over 12 GRI aspects, from human rights issues to environment and labor practices, thus creating the need to clearly define the report scope and boundaries.

At the same time, we view the development of this report as a great opportunity for EGYTRANS, as it represents a detailed assessment of our policies, practices and performance in sustainability.

Our commitment to the future is to seek continuous improvement, using this assessment as a baseline to identify new and necessary policies, action plans and goals which promote excellence in sustainability. We believe that the development of a sustainable future depends on cooperation among all stakeholders and that sustainability begins with the decisions we make today.

Once again I express my satisfaction in presenting this report to you. I hope that its content will contribute to a greater knowledge of the effort that EGYTRANS is making towards sustainable development. We firmly believe that our policies adhere to the 10 principles of the UN Global Compact and we look forward to continuing our work with the Egyptian Local Network.
