Request for grace period

Dear Sir/Madam,

With this letter, we wish to request a grace period of our Communication on Progress (COP).

We are currently in the process of publishing fundamental research on sustainable architecture. The research is based on a partnership between Henning Larsen Architects A/S and Danish Technological Institute and offers state-of-the-art knowledge about the possibilities of sustainability in architecture. Due to external factors, the publication has been delayed. We wish to include the research in our COP, thus we request an extended deadline.

We recognize that a key requirement for participating in the UN Global Compact is the annual preparation and submission of a COP comprising a statement of continued support for the UN Global Compact, a description of concrete initiatives adhering to the principles of the UN Global Compact and a measurement of outcomes or expected outcomes.
