Dear Mr Secretary-General,

Barangaroo Global Compact Communication on Progress 2012

Purpose

To present the Barangaroo Delivery Authority's 2012 Communication on Progress Report statement of continued commitment to the UN Global Compact principles.

Background

The United Nations (UN) Global Compact is globally recognised as the world's largest strategic policy initiative for businesses and organisations that are committed to aligning their operations and strategies with ten universally accepted principals in the areas of human rights, labour, environment and anti-corruption.

Statement of Commitment

Since its inception in 2009, the Barangaroo Delivery Authority has been a signatory to the UN Global Compact and today we remain committed to the ten principles of the Compact in the areas of human rights, labour, environment and anti-corruption.

We believe that the work of the Global Compact plays a vital role in helping to ensure that global business practices make a positive contribution to the people of the world in which we live.

The Authority is proud to be an active member and supporter of the UN Global Compact Australia network, hosting and presenting at the national roll out of training for the network members in 2011 and the inaugural meeting of the UNGCA Environment Leadership Group in April 2012. The Authority strongly believes that this commitment will assist in achieving the environmental and social sustainability aspirations for the Sydney CBD waterfront renewal of Barangaroo.

The attached 2012 Communication on Progress report illustrates the Authority's on going work to implement the ten principles. The Report is a stand-alone document with highlights being integrated into the annual report.

Yours sincerely

A handwritten signature in blue ink, appearing to read "John Tabart".

John Tabart
Chief Executive Officer
