

To whom it may concern

We recognize that the main requirement to continue our participation in the UN Global Compact is the submission of an annual communication on Progress report that describes the actions taken by our organization to implement the 10 principles.

We are in the process of finalizing this year's Communication on Progress report within two months. It was supposed to be finished earlier but some obstacle came our way to meet the deadline.

According to the above, we are requesting a grace period of two months in order to be able to submit our report.

Sincerely yours,

General Manager

Mahmoud Samy Nagy
