New York, NY 10017
USA

Dear UNGC Secretariat,

Environmental Resources Management (ERM) joined the Global Compact in 2011, and remains firmly committed to working to achieve its objectives.

ERM is scheduled to submit its first Communication on Progress (COP) by 3rd October 2012. We request an adjustment in our submission period to October 31, in order to align our COP reporting with our Annual Sustainability Report as we wish to integrate the two documents. Our Sustainability Report is in alignment with our financial year, which runs from 1 April – 31 March.

We trust you will agree to this request.

Sincerely yours,

Linden Edgell
Global Sustainability Program Director
Environmental Resources Management
