22 October 2012

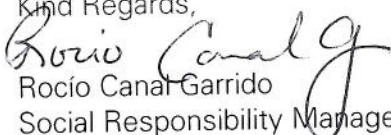

To our stakeholders:

For KPMG in Mexico as a member of UN Global Compact is very important to inform the actions we have undertaken and the results achieved since our last publication of the Communication on Progress (COP).

We know that one of the criteria to meet as signatories of the UN Global Compact, is to publish our COP, however because we are about to culminate with the publication of our social responsibility report, we request an extension of the period of publication of our COP in which we will be pleased to share our compliance as members of the UN Global Compact.

The publication of our COP will be available no later than January 14, 2013 at the official site of the United Nations. I invite you to read it and give us your feedback.

Kind Regards,

Rocío Canal Garrido
Social Responsibility Manager
