

SINGAPORE POLYMER CORPORATION (PTE.) LTD

A Teknor Apex Company

ENVIRONMENTAL, HEALTH AND SAFETY (EHS) POLICY

Singapore Polymer Corporation, as one of Asia's leading producer of thermoplastic compounds and being a Teknor Apex company, endeavors sustainability and effective implementation of EHS management system for its compounding processes and work activities.

We will integrate EHS considerations into all aspects of our polymer compounding business operations. Through continual improvement of our EHS performance and management system, we are committed to prevention of injury and ill-health to our employees, contractors and other related parties as well as environmental conservation.

To fulfill our commitment for EHS continual improvement, we strive and will:

- Comply with all applicable EHS legal requirements to safeguard all personnel's general well-being and environmental preservation.
- Establish EHS objectives, targets and programs for achieving the objectives to ensure continual improvement in EHS performance.
- Ensure a safe workplace and protect all personnel from injury and ill-health through implementation of control measures for our compounding processes and worksite activities.
- Conserve natural resources through prevention of pollution, energy conservation and waste minimization.
- Through training and education, continually raise the EHS awareness of all personnel and stressing personal accountability.
- Provide necessary resources and leadership for the continual improvement in environmental, health and safety management system.
