

CORPORATE ENVIRONMENTAL, HEALTH & SAFETY TEAM MISSION STATEMENT

The goal of the Teknor Apex Company Corporate Environmental Health and Safety (EH&S) Team is to manage risks to the environment and worker safety and health for the company. To this end, the team will develop and maintain a proactive corporate culture and an environmental, health and safety management system which will:

- Develop policy and secure Management approval;
- Work with Engineering, Maintenance and Line Management to provide a safe and healthy work place;
- Facilitate compliance with all Federal, State and Local environmental, health and safety regulations;
- Communicate and coordinate EH&S programs, procedures and objectives throughout the organization;
- Recognize that the team cannot meet its objectives without all employees support and involvement;
- Minimize the environmental impact of our operations, including reduction of emissions and wastes;
- Provide technical as well as regulatory guidance and support services to the Company;
- Influence local, state and federal regulatory development primarily through industry groups;
- Continuously evaluate Teknor Apex Company's performance and implementation of its EH&S programs.
