30 November, 2012

**Re: Grace Period Application**

Dear Jerome Lavigne-Delville,

The communication of progress report of ScanCom International A/S was supposed to be submitted in November 2012. However, The Board Meeting in ScanCom International A/S - where issues relevant for the UNGC Progress Report were to be confirmed - was postponed from early November till late November.

We therefore ask for a an extension period of 15 days - i.e. until 15 December 2012 - for our first submission.

Our next reporting cycle will be maintained as 30 November 2013 and our report will be posted on UN Global Compact website around same date.

Yours faithfully,

Villy Hasemann  
Group Technical Director  
ScanCom International A/S
