Subject: VSP Recycle Campaign (VSP-Maju)

Dear Employees,

SAVE EARTH, we are organizing the recycling campaign, please begin recycle from your home by today if you have not yet to do so, together we make the world a better place to live with, not only for you and also for your next generation.

You may look for your own Recycle Centre around your home or the below contacts and website :

www.amitabhacentre.org

This Amitabha Centre is able to collect the recycle items from your home. Please call ...

Recycling, it changes life!

Yes, the papers and metal that you had thought nothing of could change lives. By recycling, you had not only contributed efforts to reduce wastage and global warming, but also give a meaningful gift to charitable causes. Starting today spare a second before throwing anything away, remember every effort no matter how small, helps! Call us to locate a charitable recycle near you today.

RECYCLING HOTLINE

| | |
|--------------|-------------------------------|
| Johor Bahru | +607-238 0448 / +607-554 6793 |
| Kuala Lumpur | +603-79811320 |
| Malacca | +606-336 4601 |

It had been said over millions of times, yes you had probably heard it over millions of times too, but really, are you doing anything at all? Our mother earth is in an extremely dire state, there's no another spare earth we

can rely on. What damage we had done today, our children will certainly bear the consequences. You must take a stand and help save the earth, **NOW!**

Recycling Reduces Greenhouse Gas Emissions and saves resources

By recycling we are reducing the amount of energy used by industry, thus reduces greenhouse gas emissions and helps prevent global climate change. This is because much of the energy used in industrial processes and in transportation involves burning fossil fuels like gasoline, diesel and coal, the most main culprit of carbon and other greenhouse gas emissions into the environment.

The recyclables are divided to different categories and then process in different manners.

Please join VSP Recycle Campaign and appreciate you all could help to snap the photos of your recycle items contributed and the Recycle Centre of your preference for our records.

The data are to be forwarded to us for compilation.

In-Charge : Siti Afifah/Irma
Compilation & update : Joseph (Global Compact)

Thanks for your full support and co-operation.

Best Regards,
Irene
