A Statement of Management's Commitment to the Ten Principles of the UN Global Compact

We are pleased to present our second corporate social responsibility report, which highlights the progress Conclav Capital Ltd. has made in implementing the Ten Principles of the UN Global Compact in 2012.

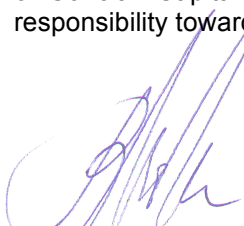

Conclav Capital Ltd. is an investment and finance company specialized in providing consulting services and investment solutions, which help our customers, achieve their objectives and accomplish their projects. The name "Conclav Capital" has been known across the Russian market since 1996.

In January 2010 by the decision of the Board of Directors we joined the UN Global Compact. However, the corporate social responsibility record of Conclav Capital Ltd. began long before that moment. During the fifteen years of our successful work we have been seeking to establish ethical relationships with our customers, partners, and government bodies, to be environmentally friendly, and to take care of our employees. Thus our joining the Global Compact has become a logical and natural continuation of our work toward sustainable development of our company and society as a whole.

The present report aims to prove that social security constitutes an integral part of our corporate culture and of our long-term development strategy. During the review period, notwithstanding the global financial crisis, we have raised our employees' salaries, invested into development, encouraged and assisted our employees in their professional growth, participated in charity events, and made charitable contributions.

Following the business principles of customer orientation, professionalism, and building corporate culture and traditions, we have ensured absolute compliance with the requirements of the highest international standards and norms, the legislation of the Russian Federation on the quality of service provided, social responsibility within the company, and responsibility towards the society and country as a whole. Our employees and customers have been offered yet more possibilities for their personal and corporate development.

Today our organization is keeping in line with the main idea of the UN Global Compact: to achieve commercial success on the precondition that human values are respected and preserved. The social responsibility priorities of Conclav Capital Ltd. are the quality of services we provide, social responsibility within the company, and responsibility towards the society as a whole.
