Dear Mr. Secretary General,

Communication On Progress 2011/2012 - Statement of Continuous Support

It's with great pleasure that Diesel & Motor Engineering PLC presents to you its first communication On Progress for the year 2011/2012. The COP will be submitted as a part of our Integrated Annual Report 2011/2012.

As a company we have continuously invested in people by means of training and development for our own human capital and also for the youth of our immediate community. We have also made heavy investments during the year in Green Buildings to safe guard our environment. The above are only two examples of our practices. Our scope of contribution to the society and the environment is at large. All projects and initiatives undertaken during the year are discussed in details in our Integrated Annual Report 2011/2012 which is submitted as the COP. We continue to engage in these activities because we understand the importance of investing in people and environment is equally important as earning profits for sustainable growth of an organisation.

Our Communication On Progress for the year 2011/2012 shows our commitment to the Global Compact Principles on Human Rights, Labour, Environment and Anti-Corruption. We believe that our commitment to the ten principles will pave the path to meeting the socio-economic needs of the world. Hence we will strive hard to support the UN Global compact and its Ten Principles.

Sincerely Yours,

DIESEL & MOTOR ENGINEERING PLC,
