

Communication on Progress

- General Information
- Submit your COP

Required: upload the COP as a PDF file

Create a PDF file

In order to track your progress year to year, it is important that we keep a history of your annual disclosure in our records. If your COP is entirely web-based, please create a PDF file of your website. We suggest using one of the following free tools, however the Global Compact makes no representation of the software available at the following links:

- PDFmyURL
- pdfcrowd
- PDFCreator

Once you have created your PDF file, please upload your COP below:
