

To our stakeholders

I am pleased to confirm that Arab Center for Engineering Studies (ACES) reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-Corruption.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to share this information with our stakeholders using our primary channels of communication.

Sincerely yours,

Dr. Izz Eddin Katkhuda
Partner & Director

ACES Code of Ethics

We, the employees of Arab Center for Engineering Studies (ACES) believing in the importance of Engineering Consulting and in the necessity of upgrading the standards of the profession, hereby declare that we commit ourselves to the following Code of Ethics.

Dealing with Clients

Confidentiality: We will keep client information confidential and will not use them for personal purposes or allow others to do so.

Servicing Clients: We will serve our clients with integrity, competence and objectivity.

Conflict of interest: We will not allow any conflict of interest that would provide a competitive advantage to a client through our use of confidential information from another client who is a direct competitor without that competitor's permission.

Recruiting: We will not recruit employees of a client or assist them in getting employment anywhere else without prior consulting with the client.

Principles of Engagements

Qualifications: We will not engage in any consulting assignment unless we are qualified to perform it based upon our experience and competence.

Contracts: We will make sure that the objectives, scope of work, work plan, the professional fees and payment arrangements have all been agreed upon with the client in writing before commencing the execution of any consulting assignment

Expectations: Based upon our honesty and objectivity, we will refrain from encouraging unrealistic expectations or guarantee specific results to clients that might arise from our engineering consulting services.

Objectivity: We will immediately inform our clients of any influences on our objectivity and integrity and will offer to withdraw from a consulting assignment when they are impaired.

Coordination with Others: We will not engage in any consulting assignment with clients if there are other engineering consulting firms or individuals working with those clients, without prior consultation with them and ensuring that there is no conflict between the concerned parties.

Conducting Consulting Assignment

Quality: We will conduct any consulting assignment with professionalism and high quality commensurate with specialization experience, expertise and gained knowledge.

Guidance for Implementation Purpose: We will educate and guide client staff regarding the principles, techniques and methodologies adopted in conducting an assignment, to assist them in implementing the proposed solutions successfully.

Documentation: We will document all reports submitted to clients, to maintain continuity of understanding of their problems and the solutions that have been designed for them in order to refer to them when needed.

Review of Other Work: We will review the work done by other consulting firms or individuals for the same client without issuing any judgmental remarks on the standard of the work being reviewed.

Commitment: We will commit ourselves to the agreed – upon scope of work and conditions.

Fees

Fees: We will charge reasonable fees that are commensurate with the services we deliver, the responsibility we shoulder and the time we spend.

Commissions: We will not accept any commissions, fees or remunerations from other parties in connection with any recommendation to a client to award works or buy equipment, materials or services as a result of our consulting assignment.

Profession

Advertising the Services: We will not advertise our services in a deceptive or exaggerated manner or in any other way that may impair the integrity of the profession of engineering consulting.

Property Rights: We will protect the intellectual property rights of our clients, other consulting firms and individuals and will not use their proprietary information or methodologies without their permission.

Professionalism: We will maintain a fully professional standard in our dealings with clients, the public and fellow consultants.

Cooperation and Professional Development: We will assist our fellow consultants in developing their capabilities, support them in practicing the code of ethics of the profession and cooperate with them in a constructive manner. We will strive for our professional development by continually improving our knowledge, skills and techniques and exert efforts for the advancement of the management consulting profession.

Description of concrete actions to implement Human Rights policies, address Human Rights risks and respond to Human Rights violations

ACES Newsletter Issue 40, February 2013:

Arab Center for Engineering Studies(ACES) and Gift of Life Charitable Society(GOLA) Join hands in advancing a noble mission of saving the lives of children suffering from chronic heart disease

As part of Arab Center for Engineering Studies (ACES) commitment to contribute to the local community, ACES provided a distinctive contribution worth twelve thousand dinars to the Gift of Life Charitable Society (GOLA) to conduct heart surgery to save the life of two children who suffer from chronic heart disease, reflecting ACES involvement in charitable initiatives and noble quest to extend a helping hand and assistance to the needy in the community.

Ms. Sirene Khurma, GOLA President, expressed her sincere thanks and gratitude to the owners of ACES, Dr. Omar Abdulhadi and Dr. Izz Eddin Katkhuda , for their generous contribution.

“ We are very happy to support GOLA in this noble initiative. We hope that our modest contribution will help to save the life of the two children. Children are the cornerstone of our community and they deserve our best care and attention,” said Dr. Omar.

It is worthwhile mentioning that ACES plays continuously an active role in corporate social responsibility(CSR) in different areas including the contribution to the well-being of the society, the preservation of the environment, the improvement of health care and education, the protection of ACES employees, and so on. ACES joined the Global Compact Program in 2008, which is the world’s largest initiative in the areas of human rights, labor, environment and anti-corruption sponsored by the UN.

ACES Newsletter Issue 40, February 2013

Arab Center for Engineering Studies (ACES) was honored by the University of Jordan (World Aliasta Organization), which is an independent non-profit organization established in 1948 in the city of London, a relevant body of the United Nations, and related to international non-governmental organizations and UNESCO, for ACES efforts in supporting the University of Jordan and other Jordanian universities, and the Organization of Aliasta in particular in training university students so that they can be qualified and well trained to join the labor market and be part of the local and international society.

ACES also received an honor from the Fund's King Abdullah II Development Association Loyac - Jordan (The Path Program), attracting trainees through the Association to be trained in the fields of ACES specialized engineering services (Geotechnical & site Investigation, and materials technology & testing).

ACES was represented by Mr. Mohammed Hyasat, ACES Human Resources and Administration Manager, who received the shields from both organizations in two separate ceremonies.

Other Local Contributions

- Students Assistance USD 32300
- Operation Smile USD 700
- Tkiyet Om Ali USD 2250
- King Hussein Cancer Foundation USD 21200
- Ebal Charity Association USD 1130
- Promise Welfare Society USD 3000
- The Islamic Charity Center USD 600

Measurement of outcomes

- The lives of two children suffering from heart diseases were saved.
- Several University Students were rehabilitated and trained to join the labor market.

Description of concrete actions taken by the company to implement labour policies, address labour risks and respond to labour violations.

Environment

Description of the relevance of environmental protection for the company (i.e. environmental risks and opportunities). Description of policies, public commitments and company goals on environmental protection.

[ACES' Environment Policy Statement](#)

General Policy

ACES is committed to ensuring the preservation of the environment. ACES will conduct their business in such a fashion as to ensure that no damage is caused to the environment as a result of its activities.

Objectives

ACES objectives in the fulfillment of this policy are:

to ensure that company employees recognize the importance of the environment

to work closely with the client and comply with their environment rules, regulations and specifications

to mitigate any damage to the environment as a result of an accident
to implement and continually upgrade its environmental procedures

Responsibilities

The overall responsibility for pursuing sound environmental principles in the conduct of ACES operations lies with the resident manager and the environment studies & testing department. All employees will be trained and encouraged to contribute towards the preservation and protection of the environment in their work place and outside and to suggest improvements whenever and wherever possible

Implementation

Description of concrete actions to implement environmental policies, address environmental risks and respond to environmental incidents.

- Annual Contribution to the UN Global Compact
- Creation of the Environment Friend Award @ ACES
- Imposing Non-Smoking Rules

Concluded Environment Projects

- Noise Monitoring for AlGhabawi Project in Al Ghabawi area in Jordan.
- Environmental Testing in Aqaba with MAG Engineering & Contracting Company.

Measurement of outcomes

- contribution to the preservation of the environment in Aqaba.
- Improvement of the general safety of ACES employees as a result of continuous training on safety and the safety manual.

Anti-Corruption

Description of the relevance of anti-corruption for the company (i.e. anti-corruption risk-assessment).
Description of policies, public commitments and company goals on anti-corruption.

Not Applicable

Description of concrete actions to implement anti-corruption policies, address anti-corruption risks and respond to incidents.
