Short description of the business

Energoinvest d.d.-Sarajevo is a multidisciplinary engineering company with dominant export orientation. We are the leading company in Bosnia and Herzegovina with the scope of activities of design and realization of complex plants in the country and abroad in the fields of electric power, hydro civil construction and architecture, automation thermal power and process plants and communication technologies.

Drawing on the wide-ranging experience and considerable resources Energoinvest's business doctrine has been evolving through sixty years, with all efforts being directed to create portfolio of activities in respect of clients' needs and requirements. The ability of Energoinvest to execute complete projects on turn-key basis on time, has earned the company an unrivalled reputation worldwide.

Statement of continued support

February 19th 2013.

To our stakeholders:

I am pleased to confirm that Energoinvest reaffirms its support of the Ten Principles of the United Nations Global Compact in the areas of human rights, labour, environment and anti-corruption.

In this annual Communication on Progress we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to share this information with our stakeholders using our primary channels of communication.

Yours sincerely

M.Sc. Enes Čengić
General Manager

Human Rights Principles

Principle 1: Businesses should support and respect the protection of internationally proclaimed human rights; and

Principle 2: Make sure that they are not complicit in human rights abuses

Commitment, policy and goals

Energoinvest actively supports the Universal Declaration of Human Rights. We will not carry out business with any countries or regimes where flagrant human rights abuses are known e.g. torture, politically motivated disappearances etc. Our policy is unambiguous respecting all human rights and connected positive practices. This is regulated with suitable internal documents (Articles of association, Rulebook about human rights, OH&S Manual / Procedures, Code of conduct) harmonized with laws, and other relevant regulations.

We implement Occupational Health and Safety System in accordance with a standard OHSAS 18001. System is regularly assessed by our internal auditors and externally by certification body Lloyd's Register. Also, representative of employees, delegated by the trade union of the Company, has been continually included.

Special Regulations regulate the procedure of appeal / complaint employees in case of violation of the declared human rights.

Implementation

- a. Trainings of all employees regarding human rights and awareness of importance of protection of occupational health and safety. Each new employee passes through this training.
- b. Every year, we identify hazards to health and safety, assess risks, set goals and program activities to achieve goals. Achievement is regularly monitored and, as necessary, we take appropriate actions for improvement.
- c. Conducting of internal and external audits and corrective actions in accordance with findings.
