NOTES

+1 0

Welcome to the Moringa Partners Network customer access area. Thank you again for your confidence in us. Below you will find the different levels of membership (gold silver free membership) you

- Register
- Log in
- Entries RSS
- Comments RSS
- WordPress.org

(gold, silver, free membership) you can access and instructions for your specific purchase.

GOLD MEMBERS – Access to all areas and participation in the trainings and webinars

SILVER MEMBERS – Access to all areas except trainings and webinars

Access to selected areas – can participate in others as agreed

Dr. Kebreab Ghebremichael has joined the Patel School of Global Sustainability at the University of South Florida as a senior research fellow. Until June 2011, he was a senior lecturer at the UNESCO-IHE Institute for Water Education in The Netherlands.

At the Patel School, Dr. Ghebremichael's main research area will be on Integrated Urban Water Management and aspects of sustainable urban water systems. He is also partly involved in the MA programme on Global Sustainability.

Dr. Ghebremichael is a civil engineer with a focus on sustainable and low cost water treatment systems (indigenous and bio-processes). He is especially known for his work on the use of Moringa oleifera seeds as a low-cost locally available alternative to expensive commercial coagulants used in water treatment plants in developing countries...[Read more](#)

Clean Power Concepts Announces Merger with Brazil's Integrated ...

IBI is a biodiesel company headquartered in Sao Paulo, Brazil, and develops plantations of **Moringa oleifera** as alternative source of vegetable oil as well...Clean Power Concepts is a Canadian agricultural commodity processing and alternative energy company engaged in oilseed crushing. Clean Power's "above ground oil well" concept allows it to supply oil for food production and renewable fuels or nutraceutical supplements. Michael with visions for the future of agricultural commodities ...[READ MORE](#)

Cheap, Sustainable Water Filter Made from Seeds and Sand

LiveScience.com

It's a thin-branched, gangly-looking plant scientifically known as **Moringa oleifera** and commonly called a drumstick tree, for the shape of its seedpods. [READ MORE](#)

- **A miracle tree that purifies water.** Anything with the name “miracle” in it makes us skeptical, but science thinks the seeds of the *Moringa oleifera* could be used to purify drinking water. And it’s cheap! And it’s safe! And it’s sustainable! And ... it sounds a bit too good to be true. But when sand was added to the seeds they killed dirty microbes. “The results open the possibility that ... f-sand can provide a simple, locally sustainable process for producing storable drinking water,” said optimistic researchers. [[Langmuir](#)]
 - **Moringa oleifera** is a plant with abundant health benefits. It is that wonderful and tasty source of natural vitamins that you have been looking for. The moringa plant grows all over India, and has been brought to other parts of the world to grow as well. Moringa grows fast, rivaling other plants, and produces foliage, leaves, and even some seed pods, depending on the time of year. [Read more here](#)
 - **Moringa and Starvation:** Not all of Africa has Moringa trees growing. In many places, they are planted by organizations who are trying to fight starvation there. So Moringa Trees are not available to all areas where starvation is occurring. In these countries, there are many thousands with AIDS. Moringa leaves are not a cure but a food that helps them live longer. In these diseases there is loss of weight, weakness, and inability to eat or hold food down. Moringa leaves helps to get some nutrition down them. In many cases, the Moringa leaves may not work at all because of their horrible state of health. [Read more here](#)
- Moringa and Cancer:** Moringa is a super food but not a cure all. If you have stage 4 or 5 cancer, it may not help at all. In some cases, Moringa leaf tea may keep the patient alive longer since they can drink the tea. Often cancer patients cannot hold anything down or eat. If you are constantly throwing up, Moringa tea will get thrown up as well. There is a point where herbs cannot help, because the patient is too far gone. Chemo and radiation also destroy the immune system and the good cells as well. You have to have an immune system that is working to get well from anything. Many of the drugs today, reduce the immune system’s effectiveness. [Read more here](#)

Effects of processing on Moringa oleiferaThe study revealed that dried leaf powder of Moringa can serve as an excellent source of minerals.
