We survey our employees opinions of labour conditions every second year by independent operator (insurance company). This survey is implemented since 2006. Results of these surveys show stability and improvement in our labour conditions. According to surveyed information there is no need for concerns.

We follow up our suppliers policies by auditing their operations with a structural form.

ENVIRONMENT

COMMITMENT

Principle 7 – Precautionary Approach

Principle 8 – Environmental Responsibility

Principle 9 – Environmentally Friendly Technologies

ACTION

Mercamer Oy follows the instructions of our Environmental manual (ISO 14001). We are actively reducing our operations load to environment.

When choosing suppliers we evaluate their progress in taking care of environment. We inform and advice our customers of environmental friendly solutions. Our company is actively seeking for new more environmental friendly packaging solutions. We co-operate closely with a leading Finnish packaging engineering company. Our mutual goal is to reduce impacts to environment by offering our customers packaging material solution that reduce the impact to environment.

OUTCOME

Mercamer Oy measure following targets: Consumption of electricity, company car CO2 emissions, amount of produced waste and consumption of heating power. Every measured value has a target value and we can see that over the years we have been able to reduce our load to environment. We don't have own production, therefore our possibility to impact directly these values is limited due to the nature of our business.

We follow up our suppliers actions to reduce environmental load by auditing their operations with a structural form.
