## Grace letter

Dear Stakeholder and Global Compact responsible,

our communication on progress report has been completed and shows our development of expanding the Global Compact principles within our company and with our partners.

The document is ready for the upload but due to a sudden business trip of the company's owner it will be delayed by a few days.

Mr. Arnulf Piepenbrock is a strong advocate of the principles and with pleasure he will sign our progress.

Therefore I would like to ask you for your understanding.

Yours faithfully

Ursula Wermelt
