It is submitted that FFC is unable to submit the COP within the deadline which is 30<sup>th</sup> of March 2013. However we have already started the compilation of the report which will take another 6 months for completion and printing of the report. Therefore it is requested to give me another 6 month's time to fulfill the COP requirement and post the Sustainability Report on the UNGC and FFC websites.

Your support in this regard will be highly appreciated.

Kind Regards,
