Dear Mr Kell,

**Communication on Progress:
Statement of Continued Support for the UN Global Compact**

I am pleased to confirm that SingTel, Asia's leading communications group with operations and investments around the world, will continue to support the ten principles of the UN Global Compact relating to human rights, labour, environment and anti-corruption.

SingTel is committed to strong corporate governance and continuous improvements as part of our sustainability efforts. We produced SingTel's 3rd Sustainability Report FY2012 in June last year, providing an overview of our approach, policies, priorities and performance in the area of sustainability for our Singapore business operations.

The report adopts the reporting principles from the Global Reporting Initiative (GRI) G3.1 Guidelines and meets the requirements of a GRI Level 'B+' report, having been subject to an application level check by GRI and an external assurance process.

You can view our report at <http://info.singtel.com/about-us/sustainability/sustainability-report>.

Thank you.

Yours sincerely,
