**Year: 2013**

### **Statement of continued support by the Senior Vice President and Managing Director**

Dear Stakeholders

Ceridian Mauritius has been supporting the ten principles of the Global Compact since 2010. As a member of the Global Compact, our business policies revolve around the ten principles of the UN Global Compact. Through our support of the United Nations Global Compact, we also aim to move the programme forward on human rights, labour rights, the environment and the fight against bribery and corruption. In our report we summarised the progress we have made against these principles and we will continue to follow them up in future.

We are today happy to confirm our continued support for the Global Compact and renew our ongoing commitment to the initiative and its principles.

Sincerely yours,
