

4/4/2013

United Nations Global Compact
United Nations
New York, NY 10017
USA

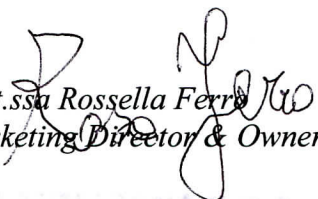

To whom it may concern:

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that comprises of a statement of continued support for the Global Compact, a description of practical actions that our company has taken since our last COP, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to the delay about the COOLING & POWER PLANT project; considering that it represents the most important activity about the environmental area, we are waiting for the results about the cost reducing and primary energy saving before sending you a report. We are also improving the other principles of the UN Global Compact and we want to give you a reasonable feedback about all our investments.

We hereby ask for an extension period in order to be able to submit a COP that describes our company's efforts and progress to implement the ten principles of the Global Compact. Our new COP report will be posted on the Global Compact website by 30/06/2013 at the latest.

Sincerely yours,

Dott.ssa Rossella Ferro
Marketing Director & Owner
