**Phoenix Design Aid – Grace Letter**

Phoenix Design Aid wishes to set an even higher standard for our corporate social responsibility and therefore we have decided to aim for the GC Advanced level for our next Communication on Progress. This will give us the opportunity to demonstrate and report on an even wider range of sustainability strategy, governance and management practices, which we have applied to our daily work processes.

To thoroughly communicate on our implementation of best practices in these new areas we request to extend our submission deadline with 90 days. This will provide us with valuable time to describe how Phoenix Design Aid meets or plan to meet advanced criteria in our annual COP 2012.

Kind regards,

Phoenix Design Aid

Dennis Lundø Nielsen  
Managing Director,
