Communication on Progress

Dear Mr. Secretary-General,

We would like to take this opportunity to reconfirm our support of the UN Global Compact and our commitment to the ten principles with respect to human rights, labour, environment and anti-corruption. Our commitment implies a continuous evaluation of our efforts within the field of corporate social responsibility and is an integral part of the daily work within our company.

In order to reach as many of our stakeholders as possible with our Communication on Progress, we have continued to submit our sustainability report as an integrated part of our Annual Report (enclosed). The sustainability report is found on page 44-57 as well as on our website (www.fabege.se). We report in accordance with level C+, GRI version 3.0 and the GRI-index is found on page 56-57.

We are pleased to share our sustainable highlights in 2012 with you:

- As of 2013 all new builds of office buildings initiated by Fabège will confirm to the requirements of the BREEAM environmental system.
- We will continue to focus on more efficient purchasing processes in order to enhance the control of our suppliers in terms of sustainability.
- Fabège was awarded the Green Building Award in the new buildings category for Uarda 5, by the Director-General of the European Commission.
- 56 new Green Leases were signed with new tenants

Pro-active environmental work and to clearly state our high standards within business ethics are success factors for us and we will continue our efforts within this field during 2013.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Christian Hermelin".

Christian Hermelin
