To our Stakeholders,

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication of Progress (COP) that comprises our statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact and a measurement of outcomes or expected outcomes.

Unfortunately, we are late in creating, sharing and posting our COP report due to severe resource limitations within the responsible department. Our Group of Companies has expanded through a major acquisition and several ongoing projects have occupied the time of those responsible for preparing the COP. We have however, established a CSR Committee who will take lead on this exercise but require some additional time to familiarize themselves with the reporting framework and obtain updates for various projects across our Group.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP Report will be posted on the UN Global Compact Website by July 29<sup>th</sup> 2013 at the latest.

Sincerely yours,

Kimberly Perai  
Chair, Corporate Social Responsibility Committee
