Dear Mr. Secretary-General,

I am pleased to confirm that Data Consult SAL continues to support the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

To this end Data Consult was able to raise the level of awareness within its organization by delivering informative presentations on the subject of human rights, labour, respect of environment and anti-corruption.

We also took part in the 3<sup>rd</sup> Corporate Social Responsibility that was held in Lebanon on March 18<sup>th</sup> and 19<sup>th</sup> of 2013. We continue to engage in several Go Green corporate initiatives, and commit categorically in all our actions to fight corruption by every means possible.

As for measuring the impact and outcome of our efforts, we hope to communicate our progress on this level by next year.

We continue to support public accountability and transparency in all our day to day operations.

Sincerely,

 **DATA CONSULT**
