Dear Mr. Secretary-General,

I am pleased to confirm that MTR Stockholm AB supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. Our Sustainability Report 2012 according to Global Compact Reporting Initiative G3 (GRI) C-level called "En resa för alla" is also our Communication on Progress (COP). With this statement, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and support the Millennium Development Goals of the United Nations.

MTR Stockholm AB make through this GRI Report a statement of this commitment to our stakeholders and the general public. We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress in June each year, according to the Global Compact COP policy.

Sincerely yours,

Mr. Peter Viinapuu
CEO MTR Stockholm AB
