The LEGO Group Communication on Progress reporting period adjustment request

Dear Mrs. Gordana Filipic,

Per our earlier mail correspondence in the spring of 2013, the LEGO System A/S is requesting that the UN Global Compact adjust the annual due date for our Communication on Progress from, in 2014, the 22nd of February to the 15th of March in 2014, and in all subsequent years.

The LEGO Group's fiscal year 2013 (January 1st, 2013 – January 1st 2014) is announced at our Annual Result press conference held on the 27th of February where the Communication on Progress (COP Report) also is launched and will be included within our 'The LEGO Group – Progress Report 2013', scheduled to be published online at www.lego.com/sustainability, primo March 2014. As every year since 2003, the LEGO Group's Progress Report will constitute as the vehicle for reporting our Communication on Progress obligation.

Our latest publication in regards to Communication on Progress is the 2012 edition of the LEGO Group's Progress Report which can be viewed [<http://viewer.zmags.com/publication/91ea897c#/91ea897c/1>].

Please confirm that the LEGO Group's COP reporting scheduled has been adjusted for the year of 2014, and subsequent, and that we continue to be listed as an actively reporting member of the United Nations Global Compact.

Feel free to contact me if we need to discuss and questions or concerns.

Sincerely,

Morten Vestberg

Manager, Sustainability Communication
