Dear Mr. Kell,

I'm pleased to confirm that InterCement reaffirms its commitment to the Ten Principles of the United Nations Global Compact related to Human Rights, Labor Rights, Environmental Protection and Anti-Corruption Compliance, contributing to the UN Development Goals.

In 2012, InterCement concluded the acquisition of Cimpor, one of the top global cement players, becoming one the most relevant companies in the industry. In this moment of integration of two business cultures, we reassure the commitment with the Global Compact's principles as a guidance framework to our daily activities.

We recognize the Communication of Progress (COP) as major tool of disclosure of InterCement's commitment and actions in the implementation of the Ten Principles. We do support information transparency, understanding it as a requirement for sharing sustainability initiatives with our stakeholders.

Yours Sincerely,

José Edison Barros Franco
InterCement Board Chairman
