To whom it may concern

We fully support the United Nations Global Compact ten principles and our commitments as a UN Global Compact member to submit a Communication on Progress (COP).

We regret that we are late in submitting our first Communication on Progress due to business restructuring that has been recently completed. However, Ukrsotsbank continues to support and implement the UN Global Compact principles in its daily activity.

Please be assured that we are interested in preparing and submitting an informative COP that describes our CEO statement of continued support for the Global Compact, activities and programs that our company has taken measurement of the outcomes and plans for the next year. We have already started to create our first COP which is a complex process.

We hereby ask for an extension period as we are planning to submit and post COP on the Global Compact web-site by 30 November at the latest. We fully understand that timely COP submission is a key component of our commitment and we would like to re-assure you in our further efforts to submit COPs in time.

Sincerely yours,

Sergiy Shevchenko

Head of Identity & Communications
