Dear Mr. Secretary-General,

I am pleased to present Embraer's *2012 Annual Report* which represents our Communication on Progress (COP), describing our efforts related to each of ten principles of the United Nations Global Compact, which we joined on May 5th of 2008.

Our Annual Report, for the fifth consecutive year, follows the Global Reporting Initiative (GRI) Guidelines, covering the Company's activities from January 1 to December 31, 2012. Correlation between these activities and the ten principles of the UN Global Compact are clearly expressed on "GRI Index" table, pages 132-136.

Together with this communication, we express our intent to continue supporting the United Nations Global Compact and to renew our ongoing commitment to this initiative and its principles within our sphere of influence.

We are fully aware that following and implementing these principles at EMBRAER's value chain is a long term initiative and already part of our global sustainability strategy, and herein a constant target to seek, with determination to always do more and to do it better.

Sincerely yours,

Frederico Fleury Curado
President & CEO
