### **STATEMENT OF SUPPORT**

*(A statement of continued support for the Global Compact from the Chief Executive Officer, Chairman or other senior executive)*

*Being a good corporate citizen is an ambition enthusiastically embraced at all levels within our company. As a member of the Global Compact, we believe that our business policies incorporate the ten principles. Our board fully supports our actions in working towards sustainability goals – in particular those contained in the UN Global Compact – and endorses the future priorities and specific targets we set out in our report. Through our support of the United Nations Global Compact, we also aim to move the agenda forward on performance related to human rights, labour rights, the environment and the fight against bribery and corruption. In our annual report, we have summarised the progress we have made against each of these principles and we will continue to follow them up in future reports. Here we provide an index to our performance with cross-references to the related GC principles. More information and data are available throughout our annual report and on our website.*
