

August 19, 2013

To our stakeholders,

We recognize that as a part of our participation in the UN Global Compact, it is required to issue a Communication on Progress (COP) annually to declare our actions towards implementing the ten principles of the UN Global Compact as well as our progress with this mission.

We hereby ask for an adjustment in our COP submission deadline and would like to share our first report on September 2014 instead of October 2013 owing to the fact that we would like to report our company's efforts and progress covering the whole year. As well due to the increased number of new construction sites, not only we are unable to collect data before that period but also our annual reporting to Doğuş Group for the CSR report is during aforementioned period.

We would like to declare that our first COP will be posted on the UN Global Compact website by September the 8 th, 2014 at the latest.

Sincerely yours,

Ebru KANVERMEZ

Deputy General Manager

Ayson Geotechnical & Marine Construction Co.
