"To authorize, pursuant to the provisions of Section 75 et seq. of the Spanish Companies Act [Ley de Sociedades Anónimas, or LSA for its initials in Spanish], the derivative acquisition by Telefónica, S.A. —either directly or through any of the subsidiaries of which it is the controlling company— at any time and as many times as it deems appropriate, of its own fully-paid shares through purchase and sale, exchange or any other legal transaction.

Description of restrictions on the exercise of voting rights, under law or the company's bylaws

According to Article 21 of the Company's Bylaws, no shareholder can exercise votes in respect of more than 10 per cent of the total shares with voting rights outstanding at any time, irrespective of the number of shares they may own. This restriction on the maximum number of votes that each shareholder can cast refers solely to shares owned by the shareholder concerned and cast on their own behalf. It does not include additional votes cast on behalf of other shareholders who may have appointed them as proxy, who are themselves likewise restricted by the 10 per cent voting ceiling.

The 10 per cent limit described above also applies to the number of votes that can be cast either jointly or separately by two or more legal entity shareholders belonging to the same corporate group and to the number of votes that may be cast altogether by an individual or legal entity shareholder and any entity or entities that they directly or indirectly control and which are also shareholders.

Besides, in relation to the above and in accordance with the provisions of article 527 of the Corporate Enterprises Act, any clauses in the bylaws of listed corporations that directly or indirectly restrict the number of shares that may be cast by a single shareholder by shareholders belonging to the same group or by any parties acting together with the aforementioned, will rendered null and void when, subsequent to a takeover bid, the buyer has a stake equal to or over 70% of share capital which confers voting rights, unless the buyer was not subject to neutralization measures to prevent a takeover bid or had not adapted these measures accordingly.

Indicate if there are any legal restrictions on the acquisition or transfer of share capital.

Process for establishing board members' remuneration and relevant provisions in the bylaws

Directors' compensation shall consist of a fixed and specific monthly remuneration for belonging to the Board of Directors, the Steering Committee and the Board's Advisory or Control Committees, and fees for attending meetings of the Advisory or Control committees. The amount that the Company may pay to all of its Directors as remuneration and attendance fees shall be fixed by the shareholders at the General Shareholders' Meeting, which amount shall remain unchanged until and unless the shareholders decide to modify it. To this effect, the General Shareholders' Meeting held on April 11, 2003 fixed the maximum gross annual sum for remuneration of the Board of Directors at 6 million euros.

The Board of Directors shall determine the exact amount to be paid within such limit and the distribution thereof among the Directors.

In accordance with Article 35 of the Regulations of the Board of Directors, Directors shall be entitled to receive the compensation set by the Board of Directors in accordance with the Bylaws and following a report of the Nominating, Compensation and Corporate Governance Committee.

To this effect and in accordance with article 5 of the same regulations, the Board of Directors expressly reserves the powers to approve both the remuneration policy for Directors and decisions on the remuneration of Directors.

The Nominating, Compensation and Corporate Governance Committee has the following powers and duties (article 22 of the Regulations of the Board of Directors):

- To prepare and propose to the Board of Directors an annual report regarding the compensation policy for Directors.

Additionally, apart from such compensation as is provided for under the previous section, other remuneration systems may be established, either indexed to the market value of the shares, or consisting of shares or share options for Directors. The application of such compensation systems must be authorized by the General Shareholders' Meeting, which shall fix the share value that is to be taken as the term of reference thereof, the number of shares to be given to each Director, the exercise price of the share options, the term of this compensation system and such other terms and conditions as are deemed appropriate.

The remuneration systems set out in the preceding paragraphs, arising from membership of the Board of Directors, shall be deemed compatible with any other professional or work-based compensations to which the Directors may be entitled in consideration of whatever executive or advisory services they may provide for the Company other than such supervisory and decision-making duties as may pertain to their posts as Directors, which shall be subject to the applicable legal provisions.

B.1.19 Indicate the procedures for appointing, re-electing, appraising and removing directors. List the competent bodies and the processes and criteria to be followed for each procedure.

Appointment

Telefónica's Bylaws state that the Board of Directors shall be composed of a minimum of five members and a maximum of twenty, to be appointed at the General Shareholders' Meeting. The Board of Directors may, in accordance with the Corporate Enterprises Act and the Company Bylaws, provisionally co-opt Directors to fill any vacancies.

To this effect the Board of Directors shall have the power to fill, on an interim basis, any vacancies that may occur therein, by appointing, in such manner as is legally allowed, the persons who are to fill such vacancies until the holding of the next General Shareholders' Meeting.

Also, in all cases, proposed appointments of Directors must follow the procedures set out in the Company's Bylaws and Regulations of the Board of Directors and be preceded by the appropriate favorable report by the Nominating, Compensation and Corporate Governance Committee and in the case of independent Directors, by the corresponding proposal by the Committee.

Therefore, in exercise of the powers delegated to it, the Nominating, Compensation and Corporate Governance Committee must report, based on criteria of objectivity and the best interests of the Company, on proposals to appoint, re-appoint or remove Company Directors, taking into account the skills, knowledge and experience required of candidates to fill the vacancies.

In line with the provisions of its Regulations, the Board of Directors, exercising the right to fill vacancies by interim appointment and to propose appointments to the shareholders at the General Shareholders' Meeting, shall ensure that, in the composition of the Board of Directors, external or non-executive Directors represent an ample majority over executive Directors. Similarly, the Board shall ensure that the total number of independent Directors represents at least one third of the total number of Board members.

Similarly the nature of each Director shall be explained by the Board of Directors to the shareholders at the General Shareholders' Meeting at which the appointment thereof must be made or ratified. Furthermore, such nature shall be reviewed annually by the Board after verification by the Nominating, Compensation and Corporate Governance Committee, and reported in the Annual Corporate Governance Report.

In any case, and in the event of re-election or ratification of Directors by the General Shareholders' Meeting, the report of the Nominating, Compensation and Corporate Governance Committee, or in the case of independent Directors, the proposal of said Committee, will contain an assessment of the work and effective time devoted to the post during the last period in which it was held by the proposed Director.

Lastly, both the Board of Directors and the Nominating, Compensation and Corporate Governance Committee shall ensure, within the scope of their respective powers, that those proposed for the post of Director should be persons of recognized caliber, qualifications and experience,

who are willing to devote the time and effort necessary to carrying out their functions, and shall take extreme care in the selection of persons to be appointed as independent Directors.

Re-election

Directors are appointed for a period of five years, and may be re-elected for one or more subsequent five-year periods.

As with appointments, proposals for the reappointment of Directors must be preceded by the corresponding report by the Nominating, Compensation and Corporate Governance Committee, and in the case of independent Directors, by the corresponding proposal by the Committee.

Evaluation

In accordance with the Regulations of the Board of Directors, the latter reserves expressly the duty to approve on a regular basis its functioning and the functioning of its Committees, it being the duty of the Nominating, Compensation and Corporate Governance Committee to organize and coordinate, together with the Chairman of the Board of Directors, the regular assessment of said Body.

In accordance with the above, it should be noted that the Board of Directors and its Committees carry out a periodic evaluation of the operation of the Board of Directors and of the Committees thereof in order to determine the opinion of Directors regarding the workings of these bodies and to establish any proposals for improvements to ensure the optimum working of the company's governing bodies.

Removal or dismissal

Directors' shall cease to hold office when the term for which they were appointed expires, or when so resolved by the shareholders at the General Shareholders' Meeting in the exercise of the powers legally granted to them.

The Board of Directors shall not propose the removal of any independent Director prior to the end of the Bylaw-mandated period for which they have been appointed, unless there are due grounds therefore acknowledged by the Board after a report from the Nominating, Compensation and Corporate Governance Committee. Specifically, due grounds shall be deemed to exist when the Director has failed to perform the duties inherent to his position.

The removal of independent Directors may also be proposed as a result of Takeover Bids, mergers or other similar corporate transactions that represent a change in the structure of the Company's capital.

B.1.20 Indicate the cases in which directors must resign.

In accordance with Article 12 of the Regulations of the Board of Directors, Directors must tender their resignation to the Board of Directors and formalize such resignation in the following cases:

- b) When they are affected by any of the cases of incompatibility or prohibition established by statute.
- c) When they are severely reprimanded by the Nominating, Compensation and Corporate Governance Committee for having failed to fulfill any of their obligations as Directors.
- d) When their remaining on the Board might affect the Company's credit or reputation in the market or otherwise jeopardize its interests.

The conditions listed above under Recommendation B.1.19 "Removal" must also be taken into consideration.

Yes

Measures for limiting risk

- Pursuant to the provisions of the Regulations of the Board of Directors, the actions of the Chairman must follow the criteria established by the General Shareholders' Meeting, the Board of Directors and the Board Committees at all times.
- Likewise, all agreements or decisions of particular significance for the Company must be previously submitted for the approval of the Board of Directors or the relevant Board Committee, as the case may be.
- The Board of Directors reserves the power to approve: the general policies and strategies of the Company; the evaluation of the Board, its Committees and its Chairman; the appointment of senior executive officers, as well as the compensation policy for Directors and senior executive officers; and strategic investments.
- In addition, reports and proposals from the different Board Committees are required for the adoption of certain resolutions.
- It is important to emphasize that the Chairman does not hold the casting vote within the Board of Directors.
- The Board of Directors of the Company, at its meeting held on December 19, 2007, agreed to appoint Mr. Julio Linares López as the Chief Executive (Chief Operating Officer) of Telefónica, S.A., reporting directly to the Chairman and with responsibility over all of Telefónica Group's Business Units. On September 17, 2012, Julio Linares López was replaced as the Company's Chief Operating Officer by the director José María Álvarez-Pallete.

B.1.27 If there are few or no female directors, explain the reasons and describe the initiatives adopted to remedy this situation

Explanation of reasons and initiatives

The search for women who meet the necessary professional profile is a question of principle and, in this regard, it is clear that Telefónica has taken this concern on board. In this regard, it should be noted that, on January 23, 2008, the Board of Directors unanimously agreed to coopt, at the proposal of the Nominating, Compensation and Corporate Governance Committee, Ms. María Eva Castillo Sanz as an Independent Director of Telefónica. This appointment was ratified by the Ordinary General Shareholders' Meeting of Telefónica held on April 22, 2008, and she was thus appointed as a Member of the Board of the Company for a term of five years. On September 17, 2012, Ms. Eva Castillo Sanz was appointed as Chairwoman of Telefónica Europe, and therefore changed from being an Independent Director to an Executive Director.

Likewise, on December 19, 2007, the Board of Directors unanimously agreed, following a favorable report from the Nominating, Compensation and Corporate Governance Committee, to appoint Ms. María Luz Medrano Aranguren as the Deputy Secretary General and Secretary of the Board of Directors of Telefónica.

Article 10.3. of the Regulations of the Board of Directors stipulates that the Board of Directors and the Nominating, Compensation and Corporate Governance Committee shall ensure, within the scope of their respective powers, that the candidates chosen are persons of recognized caliber, qualifications and experience, who are willing to devote a sufficient portion of their time to the Company, and shall take extreme care in the selection of the persons to be appointed as Independent Directors.

Therefore, the selection procedure described above is based exclusively on the personal merits of the candidates ("recognized caliber, qualifications and experience") and their ability to dedicate themselves to the functions of members of the board, so there is no implicit bias capable of impeding the selection of women directors, if, within the potential candidates, there are women candidates who meet the professional profile sought at each moment.

Indicate in particular whether the Appointments and Remunerations Committee has established procedures to ensure the selection processes are not subject to implicit bias that will make it difficult to select female directors, and make a conscious effort to search for female candidates who have the required profile.

Yes

Indicate the main procedures

In accordance with article 10.3 of the Board Regulations, the Board of Directors and the Nominating, Compensation and Corporate Governance Committee shall ensure, within the scope of their respective powers, that the candidates chosen are persons of recognized caliber, qualifications and experience, who are willing to devote a sufficient portion of their time to the Company, and shall take extreme care in the selection of the persons to be appointed as independent Directors.

B.1.28 Indicate whether there are any formal processes for granting proxies at Board meetings. If so, give brief details.

In accordance with Article 18 of the Regulations of the Board of Directors, Directors must attend meetings of the Board in person, and when unable to do so in exceptional cases, they shall endeavor to ensure that the proxy they grant to another member of the Board includes, as far as is practicable, appropriate instructions. Such proxies may be granted by letter or any other means that, in the Chairman's opinion, ensures the certainty and validity of the proxy granted.

B.1.29 Indicate the number of Board meetings held during the year and how many times the board has met without the Chairman's attendance and how many times the board has met without the Chairman's attendance:

Number of board meetings	14

B.1.30 Indicate the number of Board meetings held during the financial year without the attendance of all members. Non-attendance will also include proxies granted without specific instructions:

Number of non-attendances by directors during the year	8
% of non-attendances of the total votes cast during the year	3.174

B.1.31 Indicate whether the individual and consolidated financial statements submitted for approval by the board are certified previously:

No

Identify, where applicable, the person(s) who certified the company's individual and consolidated financial statements prior to their authorization for issue by the board.

B.1.32 Explain the mechanisms, if any, established by the Board of Directors to prevent the individual and consolidated financial statements it prepares from being submitted to the General Shareholders' Meeting with a qualified Audit Report.

Through the Audit and Control Committee, the Board of Directors plays an essential role in supervising the preparation of the Company's financial information, controlling and coordinating the various players that participate in this process.

In this respect, to achieve this objective the Audit and Control Committee's work addresses the following basic issues:

- 1) To supervise the process of preparing and submitting regulated financial information. With respect thereto, it shall be responsible for supervising the process of preparation and the integrity of the financial information relating to the Company and the Group, reviewing compliance with regulatory requirements, the proper determination of the scope of consolidation, and the correct application of accounting standards, informing the Board of Directors thereof.
- 2) To supervise the effectiveness of the Company's internal control system and risk management systems, and to discuss with the auditors significant weaknesses in the internal control system detected during the audit. With respect thereto, it shall be responsible for proposing to the Board of Directors a risk control and management policy.
- 3) To establish and maintain appropriate relations with the Auditor in order to receive, for review by the Committee, information on all matters that could jeopardize the independence thereof, as well as any other matters relating to the audit procedure, and such other communications as may be provided for in auditing legislation and in technical auditing regulations.

In any event, the Audit and Control Committee must receive, on an annual basis, written confirmation from the Auditor of its independence vis-à-vis the entity or entities directly or indirectly related thereto, as well as information regarding additional services

of any kind provided to such entities by the Auditor or by the persons or entities related thereto pursuant to the provisions of the revised text of the Law on Auditing of Financial Statements approved in Royal Legislative Decree 1/2011, of 1 July.

- 4) To issue on an annual basis, prior to the issuance of the audit report, a report stating an opinion regarding the independence of the Auditor. This report must in all cases include an opinion on the provision of the additional services referred to in the previous paragraph.
- 5) To supervise internal audit and, in particular:
 - a) To ensure the independence and efficiency of the internal audit function;
 - b) To propose the selection, appointment and removal of the person responsible for internal audit;
 - c) To propose the budget for such service;
 - d) To review the internal audit work plan and its annual activities report;
 - e) To receive periodic information on its activities; and
 - f) To verify that the senior executive officers take into account the conclusions and recommendations of its reports.

The Audit and Control Committee verifies both the periodical financial information and the Annual Financial Statements, ensuring that all financial information is drawn up according to the same professional principles and practices. To this effect, the Audit and Control Committee meets whenever appropriate, having held nine (9) meetings in the course of 2012.

Furthermore, the External Auditor participates regularly in the Audit and Control Committee meetings, when called to do so by the Committee, to explain and clarify different aspects of the audit reports and other aspects of its work. Additionally, and when requested by the Committee, other members of the management of the Company and its subsidiaries have attended Committee meetings to explain specific matters that are directly within their scope of competence. In particular, managers from the finance, planning and control areas, as well as those in charge of internal audit, have attended these meetings. The members of the Committee have held separate meetings with each of these when it was deemed necessary to closely monitor the preparation of the Company's financial information.

The above notwithstanding, Article 41 of the Regulations of the Board of Directors establishes that the Board of Directors shall endeavor to prepare the final financial statements in a manner that that will create no reason for qualifications from the Auditor. However, whenever the Board considers that it should maintain its standards, it shall publicly explain the contents and scope of the discrepancies.

B.1.33 Is the secretary of the Board also a director?

No

B.1.34 Explain the procedures for appointing and removing the Secretary of the Board, indicating whether his/her appointment and removal have been notified by the Appointments Committee and approved by the board in plenary session.

Appointment and removal procedure

In accordance with article 15 of the Regulations of the Board of Directors, the Board of Directors, upon the proposal of the Chairman, and after a report from the Nominating, Compensation and Corporate Governance Committee, shall appoint a Secretary of the Board, and shall follow the same procedure for approving his/her removal.

Does the Appointments Committee propose appointments?

Yes

Does the Appointments Committee advise on dismissals?

Yes

Do appointments have to be approved by the board in plenary session?

Yes

Do dismissals have to be approved by the board in plenary session?

Yes

Is the Secretary of the board entrusted in particular with the function of overseeing corporate governance recommendations?

Remarks

The Secretary of the Board shall, at all times, attend to the formal and substantive legality of the Board's actions, the conformance thereof to the Bylaws, the Regulations for the General Shareholders' Meeting and of the Board, and maintain in consideration the corporate governance recommendations assumed by the Company in effect from time to time (article 15 of the Regulations of the Board).

B.1.35 Indicate the mechanisms, if any, established by the company to preserve the independence of the auditors, of financial analysts, of investment banks and of rating agencies.

With regards to the independence of the external Auditor of the Company, Article 41 of the Regulations of the Board of Directors establishes that the Board shall, through the Audit and Control Committee, establish a stable and professional relationship with the Company's Auditor, strictly respecting the independence thereof.

In addition, the Audits and Control Committee has a fundamental responsibility, as specified in article 21 of the Regulations of the Board, to establish and maintain appropriate relations with the Auditor in order to receive, for review by the Committee, information on all matters that could jeopardize the independence thereof, as well as any other matters relating to the audit procedure, and such other communications as may be provided for in auditing legislation and in technical auditing regulations.

In any event, the Audit and Control Committee must receive, on an annual basis, written confirmation from the Auditor of its independence vis-à-vis the entity or entities directly or indirectly related thereto, as well as information regarding additional services of any kind provided to such entities by the Auditor or by the persons or entities related thereto pursuant to the provisions of the revised text of the Law on

Auditing of Financial Statements approved in Royal Legislative Decree 1/2011, of 1 July.

The Committee must also issue on an annual basis, prior to the issuance of the audit report, a report stating an opinion regarding the independence of the Auditor. This report must in all cases include an opinion on the provision of the additional services referred to in the previous paragraph.

In addition, in accordance with Article 21 of the Regulations of the Board of Directors, it is the Audit and Control Committee that proposes to the Board of Directors, for submission to the shareholders at the General Shareholders' Meeting, the appointment of the Auditor as well as, if necessary, the appropriate terms for the hiring thereof, the scope of its professional engagement and the revocation or non-renewal of its appointment.

Furthermore, the External Auditor has direct access to the Audit and Control Committee and participates regularly in its meetings, in the absence of the Company management team when this is deemed necessary. To this effect, and in keeping with United States legislation on this matter, the external Auditors must inform the Audit and Control Committee at least once a year on the most significant generally accepted auditing policies and practices followed in the preparation of the Company's financial and accounting information affecting key elements in the financial statements which may have been discussed with the management team, and of all relevant communications between the Auditors and the Company management team.

In accordance with internal Company regulations and in line with the requirements imposed by US legislation, the engagement of any service from the Company's external Auditors must always have the prior approval of the Audit and Control Committee. Moreover, the engagement of non-audit services must be done in strict compliance with the Accounts Audit Law and the Sarbanes-Oxley Act published in the United States and subsequent regulations. For this purpose, and prior to the engagement of the Auditors, the Audit and Control Committee studies the content of the work to be done, evaluating any situations that may jeopardize independence of the Company's external Auditor and specifically supervises the percentage the fees paid for such services represent in the total revenue of the auditing firm. In this respect, the Company reports the fees paid to the external auditor, including those paid for non-audit services, in its Notes to the Financial Statements, in accordance with prevailing legislation.

B.1.36 Indicate whether the company has changed its external audit firm during the year. If so, identify the incoming audit firm and the outgoing auditor.

Description of the situation of conflict of interest

At the meeting of Telefónica, S.A.'s Executive Committee held on October 19, 2012, the Directors representing Caja de Ahorros y Pensiones de Barcelona, "La Caixa", and Banco Bilbao Vizcaya Argentaria, S.A., Mr. Isidro Fainé Casas and Mr. José María Abril Pérez, respectively, abstained from voting on the resolution relating to a bid to purchase preferred stock of Telefónica Finance USA LLC and, additionally to the simultaneous sale of treasury shares of Telefónica, S.A. and the subscription of newly issued plain-vanilla bonds, since both companies cooperate as financial institutions in the project.

C.6 List the mechanisms established to detect, determine and resolve any possible conflicts of interest between the company and/or its group, and its directors, management or significant shareholders.

Company policy establishes the following principles governing possible conflicts of interest that may affect Directors, senior executive officers or significant shareholders:

- With respect to Directors, Article 32 of the Regulations of the Board of Directors establishes that Directors shall inform the Board of Directors of any situation of direct or indirect conflict they may have with the interest of the company. In the event of conflict, the Director affected shall refrain from participating in the deliberation to which the conflict refers.

Moreover, and in accordance with the provisions set out in the Regulations of the Board, Directors shall refrain from participating in votes that affect matters in which they or persons related to them have a direct or indirect interest.

Likewise, the aforementioned Regulations establish that Directors shall not directly or indirectly enter into professional or commercial transactions with the Company or with any of the companies of the Group, if such transactions are unrelated to the ordinary course of business of the Company or not performed on an arm's length basis, unless the Board of Directors is informed thereof in advance and, with the prior report of the Nominating, Compensation and Corporate Governance Committee, it approves the transaction upon the affirmative vote of at least 90% of the Directors present in person or by proxy.

Directors must also report with respect to themselves as well as the persons related thereto (a) the direct or indirect interests held by them and (b) the offices held or duties performed at any company that is in a situation of real competition with the Company.

For purposes of the provisions of this paragraph, the following shall not be deemed to be in a situation of actual competition with the Company, even if they have the same or a similar or complementary corporate purpose: (i) companies controlled thereby (within the

meaning of Article 42 of the Commercial Code); and (ii) companies with which Telefónica, S.A. has established a strategic alliance. Likewise, for purposes of the provisions hereof, proprietary Directors of competitor companies appointed at the request of the Company or in consideration of the Company's interest in the capital thereof shall not be deemed to be in a situation of competition.

- With regards to significant shareholders, Article 39 of the Regulations of the Board of Directors stipulates that the Board of Directors shall know the transactions that the Companies enter into, either directly or indirectly, with Directors, with significant shareholders or shareholders represented on the Board, or with persons related thereto.

The performance of such transactions shall require the authorization of the Board, after a favorable report of the Nominating, Compensation and Corporate Governance Committee, unless they are transactions or operations that form part of the customary or ordinary activity of the parties involved that are performed on customary market terms and in insignificant amounts for the Company.

The transactions referred to in the preceding sub-section shall be assessed from the point of view of equal treatment of shareholders and the arm's-length basis of the transaction, and shall be included in the Annual Corporate Governance Report and in the periodic information of the Company upon the terms set forth in applicable laws and regulations.

- With respect to senior executive officers, the Internal Code of Conduct for Securities Markets Issues sets out the general principles of conduct for the persons subject to the said regulations who are involved in a conflict of interest. The aforementioned Code includes all the Company Management Personnel within the concept of affected persons.

In accordance with the provisions of this Code, senior executive officers are obliged to (a) act at all times with loyalty to the Telefónica Group and its shareholders, regardless of their own or other interests; (b) refrain from interfering in or influencing the making of decisions that may affect individuals or entities with whom there is a conflict; and (c) refrain from receiving information classified as confidential which may affect such conflict. Furthermore, these persons are obliged to inform the Company Regulatory Compliance Unit of all transactions that may potentially give rise to conflicts of interest.

D. Risk control systems

D.1 Give a general description of risk policy in the company and/or its group, detailing and evaluating the risks covered by the system, together with evidence that the system is appropriate for the profile of each type of risk.

The Telefónica Group's business is conditioned by a series of intrinsic risk factors that affect exclusively the Group, as well as a series of external factors that are common to businesses of the same sector. The main risks and uncertainties facing the Company which could affect its business, financial position and results, are as follows:

Group-related risks

→ Country risk (investments in Latin America)

At December 31, 2012, approximately 48.9% of the Telefónica Group's revenue (approximately 49.6% of its assets) is generated by the Latin American segment (primarily in Brazil, Argentina, Venezuela, Chile and Peru); 78.3% of those assets are generated in countries classified as investment grade (Brazil, Chile, Peru, Colombia, Mexico, Uruguay and Panama) by some of the credit rating agencies. The Telefónica business is especially sensitive to any of the risks related to Latin America described in this section, particularly if they affect or arise in Brazil, which at December 31, 2012 accounted for 50.6% of assets and 44.6% of revenue from Latin American operations.

The Group's investments and operations in Latin America could be affected by a series of risks related to economic, political and social factors in these countries, collectively denominated "country risk," including risks related to the following:

- government regulation or administrative policies may change unexpectedly, including changes that modify the terms and conditions of licenses and concessions and their renewal (or delay their approval) which could negatively affect the Group's interests in such countries;
- the effects of inflation, currency depreciation or currency restrictions and other restraints on transfer of funds may be imposed. For example, in Venezuela, the official US Dollar to Bolívar fuerte exchange rate is established by the Central Bank of Venezuela and the Minister of Finance. Additionally, the acquisition of foreign currencies by Venezuelan companies to pay foreign debt or dividends is subject to the pre-authorization of the relevant Venezuelan authorities;
- governments may expropriate or nationalize assets or increase their participation in the economy and companies; and
- economic downturns, political instability and civil disturbances may negatively affect the Telefónica Group's operations in such countries.

→ Foreign currency and interest rate risk

The Telefónica Group's business is exposed to various types of market risks, above all the impact of changes in interest rates or foreign currency exchange rates.

At December 31, 2012, 23% of the Group's net debt was at floating rates, while 20% was denominated in a currency other than the euro.

To illustrate the sensitivity of financial expenses to a change in short-term interest rates at December 31, 2012: (i) a 100 basis points increase in interest rates in all currencies in which Telefónica has a financial position at that date would lead to an increase in financial expenses of 96 million euros, (ii) whereas a 100 basis points decrease in interest rates in all currencies except the euro, dollar and the pound sterling, in order to avoid negative rates, would lead to a reduction in financial expenses of 36 million euros. These calculations were made assuming a constant currency and balance position equivalent to the position at that date and bearing in mind the derivative financial instruments arranged.

As for the impact on the income statement, specifically exchange gains and losses in the financial result at December 31, 2012, the impact of a 10% increase or decrease in the exchange rate would be 159 million euros (assuming a constant currency position with an impact on profit or loss at that date including derivative instruments arranged and that Latin American currencies would fall against the US dollar and the rest of the currencies against the euro by 10%).

The Telefónica Group uses a variety of strategies to manage this risk, mainly through the use of financial derivatives, which themselves are also exposed to risk, including counterparty risk. Furthermore, the Group's risk management strategies may not achieve the desired effect, which could adversely affect the Group's business, financial condition, results of operations and cash flows.

→ Dependence on external sources of financing

The performance, expansion and improvement of networks, the development and distribution of the Telefónica Group's services and products, as well as the development and implementation of new technologies or the renewal of licenses require a substantial amount of financing.

The performance of financial markets in terms of liquidity, cost of credit, access and volatility, continues to be overshadowed by persisting uncertainty regarding certain factors such as the pace of economic recovery, the health of the international banking system or the concerns regarding the burgeoning deficits of some European countries. The worsening international financial market conditions caused by some of these factors could make it more difficult and more expensive to refinance existing financial debt (at December 31, 2012, gross maturities in 2013, including the net position in derivative financial instruments, certain current payables and expected early redemptions amounted to around 10,074 million euros, or 9,574 million euros should Telefónica elect not to exercise expected early redemptions, and in 2014 to 7,850 million euros) or arrange new debt if necessary, and more difficult and costly to raise funds from our shareholders.

Furthermore, obtaining financing on the international capital markets could also be restricted (in terms of access and cost) if Telefónica's credit ratings are revised downwards, either due to lower solvency or operating performance, or as a result of a downgrade in the rating for Spanish sovereign risk by rating agencies. Any of these situations could have a negative impact on our ability to honor our debts.

Moreover, market conditions could make it harder to renew existing undrawn bilateral credit lines, 18% of which, at December 31, 2012, initially mature prior to December 31, 2013.

Risks related to the Group's industry

→ Current global economic situation

The Telefónica Group's business is impacted by general economic conditions in each of the countries in which it operates. The uncertainty about whether economic recovery will continue may negatively affect the level of demand from existing and prospective customers, as customers may no longer deem critical the services offered by the Group. The main macroeconomic factors that could have an adverse impact on consumption and, accordingly, demand for our services and the Telefónica Group's results include the dearth of credit as banks adjust their balance sheets, trends in the labor market, further erosion of consumer confidence, with an immediate increase in saving rates, or needs for greater fiscal adjustment, which would undermine household income levels. This risk is higher in Europe, but less relevant in other countries where the Telefónica Group operates.

Similarly, the sovereign debt crisis in certain euro-area countries and rating downgrades in some of these countries should be taken into account. Any further deterioration in sovereign debt markets or greater restrictions on credit in the banking sector could have an adverse impact on Telefónica's ability to raise financing and/or obtain liquidity. This could have a negative effect on the Group's business, financial condition, results of operations or cash flows. In addition, there could be other possible follow-on effects from the economic crisis on the Group's business, including insolvency of key customers or suppliers.

Lastly, in Latin America, the exchange rate risk in Venezuela (as reflected by the recent currency devaluation in February 2013) and Argentina (with a constant devaluation of the Argentinean peso against U.S. dollar) exists in relation to the negative impact any unexpected weakening in their currencies could have on cash flows from these countries. On February 8, 2013, the Venezuelan bolivar fuerte was devalued from 4.3 bolivar fuertes per U.S. dollar to 6.3 bolivar fuertes per U.S. dollar. The decision of the Venezuelan government affects the estimates made by the Group of the net asset value of the foreign currency position related to investments in Venezuela, which translates to an approximate pre-tax loss of 438 million euros on the 2012 financial statements.

→ Highly regulated markets

As a multinational telecommunications company that operates in regulated markets, the Telefónica Group is subject to different laws and regulations in each of the jurisdictions in which it provides services and in which supranational regulators such as the European Union and national, state, regional and local authorities intervene to varying degrees and as appropriate. This regulation is strict in the countries in which the Company holds a significant market power position.

In Europe, wholesale mobile network termination rates came down in 2011. There were considerable reductions in many of the countries where the Group operates, notably in the UK (with a final reduction scheduled for 2015 and a decrease in prices of over 83% compared to the end of 2010) and Germany (cuts of over 50% since December 2010). In Spain, the schedule for reducing mobile call termination rates came into play on April 16, 2012, and the target price (1.09 euros) will

be attained in July 2013, with a decrease of approximately 75% in wholesale prices. Other countries where rates will fall as from 2012 are the Czech Republic (slightly more than 49%), Ireland (approximately 72%) and Slovakia (approximately 58%).

Other services with regulated prices in Europe include call roaming, SMS and data services. The European Parliament and Council has approved the new Roaming III regulation which replaces all previous regulations. The objective of this Regulation is to set maximum prices for voice and SMS retail and wholesale services between July 2012 and July 2014, which will then be progressively reduced. It also regulates retail and wholesale data roaming charges for the first time.

Additionally, according to Roaming III, from July 2014, mobile operators would be forced to separate the sale of roaming services from their domestic services. This would allow users to choose a different operator for calls made in other Member States. Lastly, in relation to net neutrality, the new European regulatory framework establishes as a general principle the importance of ensuring European citizens have free internet access. Nevertheless, regulators could also adopt at any time measures or additional requirements to reduce roaming prices and fixed and/or mobile termination rates, and force Telefónica to provide third-party access to its networks.

Moreover, in Latin America there is tendency to review –and reduce– mobile network termination rates. For instance, reductions of 61% and 60% have been approved in Mexico and Chile, respectively. In Brazil, in October 2011, the regulator (Anatel) approved the fixed-mobile rate adjustment regulation, which entails a gradual reduction of these rates through to 2014 by applying a CPI-factor, which results in a reduction of approximately 29% in 2012-2014. The absolute decrease in public rates must be passed on to mobile interconnection rates (VU-M). In addition, there is a trend towards reductions in termination rates in Peru, Venezuela and Colombia.

The new regulatory principles established in Europe's common regulatory framework, adopted in 2009 and transposed in the national legislation of each Member State in which Telefónica operated during 2011 and 2012 could result in increased regulatory pressure on the local competitive environment. Specifically, this framework supports the possibility of national regulators, in specific cases and under exceptional conditions, establishing the functional separation between the wholesale and retail businesses of operators with significant market power and vertically integrated operators, whereby they would be required to offer equal wholesale terms to third-party operators that acquire these products.

The recommendation on the application of the European regulatory policy to next-generation broadband networks drawn up by the European Commission (EC) could also play a key role in the incentives for operators to invest in net fixed broadband networks in the short-term and medium-term, thus affecting the outlook for the business and competition in this market segment. Nonetheless, the EC is currently drafting respective recommendations on cost accounting and non-discrimination, and it is expected that these recommendations, which will affect the earlier recommendation, will be approved in mid-2013. According to statements by Commissioner Kroes, initial evaluations are that the Commission could make the regulation for new generation networks more flexible in exchange for stricter measures on new operators concerning non-discrimination.

Meanwhile, as the Group provides most of its services under licenses, authorizations or concessions, it is vulnerable to economic fines for serious breaches and, ultimately, revocation or failure to renew these licenses, authorizations or concessions or the granting of new licenses to competitors for the provisions of services in a specific market.

The Telefónica Group pursues their renewal to the extent provided by the contractual conditions, though it cannot guarantee that it will always complete this process successfully or under the most beneficial terms for the Group. In many cases it must satisfy certain obligations, including, among others, minimum specified quality standards, service and coverage conditions and capital investment. Failure to comply with these obligations could result in fines or even revocation or forfeiture of the license, authorization or concession.

Additionally, the Telefónica Group could be affected by regulatory actions carried out by antitrust or competition authorities. These authorizations could prohibit certain actions, such as new acquisitions or specific practices, create obligations or lead to heavy fines. Any such measures implemented by the competition authorities could result in economic and/or reputational loss for the Group, in addition to a loss of market share and/or in harm to the future growth of certain businesses.

→ Highly competitive markets and markets subject to constant technological development.

The Telefónica Group operates in markets that are highly competitive and subject to constant technological development. Therefore, it is subject to the effects of actions by competitors in these markets and its ability to anticipate and adapt to constant technological changes taking place in the industry.

To compete effectively, the Telefónica Group needs to successfully market its products and services and respond to both commercial actions by competitors and other competitive factors affecting these markets, anticipating and adapting promptly to technological changes, changes in consumer preferences and general economic, political and social conditions. Failure to do so appropriately could have an adverse impact on the Group's financial condition, results of operations and cash flows.

New products and technologies arise constantly, while the development of existing products and technologies can render obsolete the products and services the Telefónica Group offers and the technology it uses. This means that Telefónica must invest in the development of new products, technology and services so it can continue to compete effectively with current or future competitors, and which may result in the decrease of the Group's revenue margins. In this respect, margins from traditional voice and data business are shrinking, while new sources of revenues are deriving from mobile internet and connectivity services that are being launched. Research and development costs amounted to 1,071 million euros and 983 million euros in 2012 and 2011, respectively, representing 1.7% and 1.6% of the Group's consolidated revenue, respectively.

One technology that telecommunications operators, including Telefónica (in Spain and Latin America), are focused on is the new FTTx-type network, which offers broadband access using optical fiber with superior services, e.g. internet speed of up to 100mb or HD television services. However, substantial investment is required to deploy these networks, which entails fully or partially substituting copper loop access with optic fiber. As things stand today, scant demand for the capabilities offered by these new networks to end users could make it difficult to quantify the return on investment and justify the high investment.

In addition, many of the aforementioned works directed to network upgrade and to offer new products or services are not entirely under the Telefónica Group's control and could be constrained by applicable regulation.

→ Limitations on spectrum capacity could be costly and curtail growth.

Telefónica's mobile operations in a number of countries may rely on the availability of spectrum. The Company's failure to obtain sufficient or appropriate spectrum capacity or its capacity to assume the related costs, could have an adverse impact on the quality on the launching and provision of new services and on the Company's ability to maintain the quality of existing services, which may adversely affect the Group's financial condition, results of operations and cash flows

In 2012, Telefónica Ireland invested 127 million euros to obtain spectrum in the 800, 900 and 1800 MHz bands. On February 20, 2013, Telefónica UK was granted two blocks of 10 MHz in the 800 MHz spectrum band for the rollout of a nationwide 4G network, total investment was of approximately 645 million euros. Meanwhile, in 2012, an investment was made in spectrum capacity in Nicaragua amounting to 5 million euros. In Brazil, Vivo was awarded a block of band with "X" of 2500 MHz (20+20 MHz), including the 450 MHz band in certain states in 2012. In Venezuela, in August 2012, a concession agreement was signed between Telefónica Venezuela and the regulator for the additional 20 MHz in the 1900 MHz frequency that had been granted to this company. Also in August 2012, Telefónica Móviles Chile, S.A. was awarded radiofrequencies for 4G technology. As regards new spectrum allocations in the countries where the Telefónica Group operates, in 2013 we are expecting auctions to take place in Slovakia, Colombia and Uruguay.

→ Supplier failures

As a mobile and fixed telephony operator and provider of telecommunications services and products, the Telefónica Group, like other companies in the industry, depends upon a small number of major suppliers for essential products and services, mainly network infrastructure and mobile handsets. Telefónica Group depends on 13 handset suppliers and five network infrastructure suppliers, which together accounted for 80% of orders in 2012. These suppliers may, among other things, extend delivery times, raise prices and limit supply due to their own shortages and business requirements.

If these suppliers fail to deliver products and services to the Telefónica Group on a timely basis, it could jeopardize network deployment and expansion plans, which in some cases could adversely affect the Telefónica Group's ability to satisfy its license terms and requirements or have an adverse impact on the Group's business, financial condition, results of operations and cash flows.

→ Risks associated with unforeseen network interruptions

Unanticipated network interruptions as a result of system failures, including those due to network, hardware or software or cyber-attacks, which affect the quality of or cause an interruption in the Telefónica Group's service, could lead to customer dissatisfaction, reduced revenues and traffic, costly repairs, penalties or other measures imposed by regulatory authorities and could harm the Telefónica Group's reputation.

Telefónica attempts to mitigate these risks through a number of measures, including backup systems and protective systems such as firewalls, virus scanners and other physical and logical security. However, these measures are not always effective. Although the Telefónica Group has insurance policies to cover this type of incidents and risks, these policies may not be sufficient to cover all possible monetary losses, although the claims and loss in revenue caused by service interruptions to date have been covered by these policies.

→ Electromagnetic radio emissions and possible health risks

Currently, there is significant public concern regarding alleged potential effects of electromagnetic fields, emitted by mobile telephones and base stations, on human health. This social concern has caused certain governments and administrations to take measures that have hindered the deployment of the infrastructures necessary to ensure quality of service and affected the deployment criteria of new networks.

In May 2011, the specialized cancer research body of the World Health Organization (IARC) classified the electromagnetic fields in mobile telephony as "possibly carcinogenic," a classification which also includes products such as coffee and pickled foods. The World Health Organization subsequently indicated, in its fact sheet no. 193 published in June 2011, that to date it cannot be confirmed that the use of a mobile telephone has adverse effects on health.

The most recent official study (to the best of our knowledge), published in 2012 by Advisory Group on Non-ionising Radiation (AGNIR), concludes that there are not convincing evidences showing that mobile phone technologies cause adverse effects in the health of individuals. It cannot be certain that future reports and medical studies establish a link between the electromagnetic signals or emissions of radio frequencies and health problems.

Irrespective of the scientific evidence that may be obtained and even though the Telefónica Group has considered these risks and has an action plan for the various countries in which it provides services to ensure compliance with codes of good practice and relevant regulations, this concern, may affect the capacity to capture or retain customers, discourage the use of mobile telephones, or lead to legal costs and other expenses.

Society's worries about radiofrequency emissions could reduce the use of mobile telephones, which could cause the public authorities to implement measures restricting where transmitters and cell sites can be located and how they operate, and the use of our mobile devices, telephones and other products using mobile technology. This could lead to the Company being unable to expand or improve its mobile network. Furthermore, if any relevant authorities request that the thresholds of exposure to electromagnetic fields be reduced, the Company may have to invest in reconstructing its network to comply with these guidelines.

The adoption of new measures by governments or administrations or other regulatory interventions in this respect that may also arise in the future may adversely affect the Group's business, financial condition, results of operations and cash flows.

→ Risk of asset impairment

The Telefónica Group reviews on an annual basis, or more frequently when the circumstances require it, the value of assets and cash-generating units, to assess whether their carrying values can be supported by the future expected cash flows, including, in some cases synergies allowed for in acquisition cost. Potential changes in the regulatory, business, economic or political environment may result in the need to introduce changes to estimates made and recognize impairment losses in goodwill, intangible assets or fixed assets.

Although the recognition of impairments of property, plant and equipment, intangible assets and financial assets results in a non-cash charge on the income statement, it could adversely affect the results of the Telefónica Group's operations. In this respect, the Telefónica Group has experienced impairment losses on certain of its investments, affecting the results of the year in which they were made. In 2012, an impairment loss was recognized on the stake in Telco, S.p.A. which, coupled with the impact of the recovery of all the operational synergies considered at the time of the investment and the profit contribution for the year, resulted in a negative impact of 1,277 million euros. In 2012, an impairment loss in goodwill was recognized amounting to 414 million euros for Telefónica operations in Ireland which, combined with the write-off of the intangible asset associated with the customer portfolio allocated to this market, resulted in a negative impact of 527 million euros.

→ Risks associated with internet

Our internet access and hosting services may involve us in civil liability for illegal or illicit use of the internet. In addition, Telefónica, like all telecommunications services providers, may be held liable for the loss, release or inappropriate modification of the customer data stored on its services or carried by its networks

In most countries in which Telefónica operates, the provision of its internet access and hosting services (including the operation of websites with shelf-generated content) are regulated under a limited liability regime applicable to the content that it makes available to the public as a technical service provider, particularly content protected by copyright or similar laws. However, regulatory changes have been introduced imposing additional obligations on access providers (such as blocking access to a website) as part of the struggle against some illegal or illicit uses of the internet, notably in Europe.

Other risks

→ Litigation and other legal proceedings

→ Telefónica and Telefónica Group companies are party to lawsuits and other legal proceedings in the ordinary course of their businesses, the financial outcome of which is unpredictable. An adverse outcome or settlement in these or other proceedings could result in significant costs and may have a material adverse effect on the Group's business, financial condition, results of operations and cash flows.

D.2 Indicate whether the company or group has been exposed to different types of risk (operational, technological, financial, legal, reputational, fiscal, etc.) during the year:

Yes

If so, indicate the circumstances and whether the established control systems worked adequately.

Risks occurring in the year

Risk of asset impairment.

Circumstances responsible for this occurrence

The Telefónica Group has taken impairment losses on certain of its investments, affecting the results of the year when they were made.

Operation of control systems

The Telefónica Group reviews on an annual basis (or more frequently where the circumstances require), the value of assets and cash-generating units, to assess whether their carrying values can be supported by projected future cash flows, including, in some cases synergies included in acquisition cost. Potential changes in the regulatory, business, economic or political environment may result in the need to introduce changes to the estimates made and recognize

impairment losses in goodwill, intangible assets or fixed assets. Although the recognition of impairments of property, plant and equipment, intangible assets and financial assets results in a non-cash charge on the income statement, it could adversely affect the results of the Telefónica Group's operations.

In this respect, the Telefónica Group has experienced impairment losses on certain of its investments, affecting the results of the year in which they were made. Therefore, in 2012, as recorded in the Company's financial statements, an impairment loss was recognized on the stake in Telco, S.p.A. which, coupled with the impact of the recovery of part of the operational synergies considered in the investment, resulted in a negative impact of 1,277 million euros before tax. In 2012, an impairment loss in goodwill was recognized amounting to 414 million euros for Telefónica operations in Ireland which, combined with the write-off of the intangible asset associated with the customer portfolio allocated to this market, resulted in a negative of 527 million euros.

D.3 Indicate whether there is a committee or other governing body in charge of establishing and supervising these control systems.

Yes

If so, please explain its duties.

Name of the Committee or Body	Description of duties
Audit and Control Committee	The Board of Directors of Telefónica, S.A. has constituted an Audit and Control Committee whose powers and duties and rules of operation are set out in the Company Bylaws and in the Regulations of the Board of Directors. Such regulations comply with all legal requirements as well as with the recommendations for good corporate governance issued by both national and international bodies.
	Unless dealing with specific issues, the following shall be invited to attend Committee meetings: the External Auditor, representatives of the Legal General Secretariat and the Board, as well as representatives from the following departments: Strategic, Finance and Development, Internal Audit, Intervention and Inspection, Planning, Budgets and Control, Operations and Human Resources.
	Occasionally, as mentioned above, other managers from within the Group are invited to inform the Committee on specific areas of interest to it.
	The duties of the Committee are established in the Company Bylaws of Telefónica, S.A. (art. 31 bis), and in the Regulations of the Board of Directors (art. 21), as described in section B.2.3 of this Report.
	In addition, the Company has designed a system of information to which the Chairman and the members of the Audit and Control Committee have access, through which they can obtain, if they wish, information on the conclusions of internal auditing reports and on the fulfillment of recommendations subject to specific monitoring.
	Likewise, within the Group, Committees have been set up in those companies whose shares are listed on stock market in countries other than Spain, with similar duties to those described for the Audit and Control Committee of Telefónica, S.A.

D.4 Identify and describe the processes for compliance with the regulations applicable to the company and/or its group.

The vast majority of the companies comprising the Telefónica Group operate in the telecommunications sector, which is subject to regulation in nearly all the countries where the Group is present. Among the basic objectives of the internal control model described above is compliance with laws and regulations that affect the Telefónica Group's activities. In particular, the Group has units exercising specific control over this type of risk, especially through its legal services and in the areas of corporate regulation in the Group companies.

At the General Shareholders' Meeting held on May 14, 2012, the Board of Directors, pursuant to articles 17 and 20bis of the By-Laws and articles 13 and 20bis of the Regulations for the General Shareholders' Meeting of Telefónica, S.A., agreed to enable procedures for distance representation and voting rights.

This reform of the Regulations of the General Shareholders' Meeting was also complemented with the reform of the Company Bylaws which was also approved by the General Shareholders' Meeting of 14 May 2012, responding additionally to the need to ensure the internal consistency of the regulations and corporate governance of Telefónica, S.A.

The specific amendments introduced to the Regulations of the General Shareholders' Meeting were:

E.10 Indicate and explain the policies pursued by the company with reference to proxy voting at the General Shareholders' Meeting.

As indicated above, with a view to facilitating shareholders' attendance and participation in the General Shareholders' Meetings, the Company has established the following policies in keeping with the legislation in effect:

Voting by proxy at the General Shareholders' Meeting

- Every shareholder having the right to attend the General Shareholders' Meeting may be represented thereat by another person, even if not a shareholder. The proxy must be granted specifically for each Meeting, either by using the proxy-granting form printed on the attendance card or in any other manner permitted by the Law.
- Shareholders that do not hold the minimum number of shares required to attend the Meeting (300 shares) may at all times grant a proxy in respect thereof to a shareholder having the right to attend the Meeting, as well as group together with other shareholders in the same situation until reaching the required number of shares, following which a proxy must be granted to one of such shareholders.

Voting instructions

- The documents setting forth the proxies or powers of attorney for the General Shareholders' Meeting shall contain instructions regarding the direction of the vote. Unless otherwise expressly indicated by the shareholder granting the proxy, it shall be understood that the shareholder gives specific instructions to vote in favor of the proposed resolutions put forward by the Board of Directors regarding the matters on the agenda.
- If there are no voting instructions because the shareholders acting at the General Shareholders' Meeting are to decide matters that are not included in the agenda and are thus unknown on the date that the proxy is granted but which may be submitted to a vote at the Meeting, the proxy-holder shall vote in such direction as he deems most appropriate, taking into account the interest of the Company and that of the shareholder granting the proxy. The same rule shall apply when the relevant proposal or proposals submitted to the shareholders at the Meeting have not been made by the Board of Directors.

Proxies

- If the document setting forth the proxy or power of attorney does not state the specific person or persons to whom the shareholder grants the proxy, such proxy shall be deemed granted in favor of any of the following: the Chairman of the Board of Directors of the Company, or the person that stands in for him as Chairman of the General Shareholders' Meeting, or such person as is appointed by the Board of Directors, with notice of such appointment being given in advance in the official notice of the call to meeting. If the Chairman of the Board of Directors of the Company, or the person acting in his stead, or the person appointed by the Board of Directors, as applicable, is affected by any of the conflicts of interest contemplated in the Corporate Enterprises Act and the document setting forth the proxy does not contain any specific instructions, the proxy shall be deemed granted to the Secretary for the General Shareholders' Meeting.

Finally, to facilitate the maximum participation by shareholders, the Chairman of the General Shareholders' Meeting, or the Secretary for the Meeting acting under a delegation of powers, shall resolve all questions arising in connection with the validity and effectiveness of the documents setting forth the right of any shareholder to attend the General Shareholders' Meeting, as well as the granting of a proxy or of powers of representation to another person, and shall ensure that only such documents as fail to meet the minimum essential requirements are considered invalid or ineffective and provided that the defects therein have not been rectified.

E.11 Indicate whether the company is aware of the policy of institutional investors on whether or not to participate in the company's decision-making processes.

No

E.12 Indicate the address and mode of accessing corporate governance content on your company's website.

Telefónica complies with the applicable legislation and best practices in terms of the content of the website concerning Corporate Governance. In this respect, it fulfills both the technical requirements for access and for content for the Company website, through direct access from the homepage of **Telefónica, S.A. (www.telefonica.com) in the section "Shareholders and Investors"** (<http://www.telefonica.com/accionistasinversores/>), which includes not only all of the information that is legally required, but also information that the Company considers to be of interest.

[See sections](#)

9, B.1.22, B.1.23, E.1 and E.2.

Explain:

According to Article 21 of the Company's Bylaws, no shareholder can exercise votes in respect of more than 10 per cent of the total shares with voting rights outstanding at any time, irrespective of the number of shares they may own. This restriction on the maximum number of votes that each shareholder can cast refers solely to shares owned by the shareholder concerned and cast on their own behalf. It does not include additional votes cast on behalf of other shareholders who may have appointed them as proxy, who are themselves likewise restricted by the 10 per cent voting ceiling.

The limitation established in the preceding paragraphs shall also apply to the maximum number of votes that may be collectively or individually cast by two or more shareholder companies belonging to the same group of entities, as well as to the maximum number of votes that may be cast by an individual or corporate shareholder and the entity or entities that are shareholders themselves and which are directly or indirectly controlled by such individual or corporate shareholder.

In addition, Article 25 of the Bylaws stipulates that no person may be appointed as Director unless they have held, for more than three years prior to their appointment, a number of shares of the Company representing a nominal value of at least 3,000 euros, which shares the Director may not transfer while in office. These requirements shall not apply to those persons who, at the time of their appointment, are related to the Company under an employment or professional relationship, or when the Board of Directors resolves to waive such requirements with the favorable vote of at least 85 percent of its members.

Article 26 of the Bylaws establishes that, in order for a Director to be appointed Chairman, Vice Chairman, Chief Executive Officer or member of the Executive Commission, it shall be necessary for such Director to have served on the Board for at least the three years immediately prior to any such appointment. However, such length of service shall not be required if the appointment is made with the favorable vote of at least 85 percent of the members of the Board of Directors.

The Company Bylaws (article 21) restrict the number of shares that may be cast by a single shareholder or by shareholders belonging to the same group in order to achieve a suitable balance and protect the position of minority shareholders, thus avoiding a potential

concentration of votes among a reduced number of shareholders, which could impact on the guiding principle that the General Shareholders' Meeting must act in the interest of all the shareholders. Telefónica believes guarantees that any takeover shall require, in the interest of all shareholders, an offer for one hundred percent of the capital, because, naturally, and as taught by experience, potential offerors may make their offer conditional upon the removal of the defense mechanism.

In relation to the above and in accordance with the provisions of article 527 of the Corporate Enterprises Act, any clauses in the bylaws of listed corporations that directly or indirectly restrict the number of shares that may be cast by a single shareholder by shareholders belonging to the same group or by any parties acting together with the aforementioned, will be rendered null and void when, subsequent to a takeover bid, the buyer has a stake equal to or over 70% of share capital which confers voting rights, unless the buyer was not subject to neutralization measures to prevent a takeover bid or had not adapted these measures accordingly.

In addition, the special requirements for appointment as Director (Article 25 of the Bylaws) or as Chairman, Vice Chairman, Chief Executive Officer or member of the Executive Commission (Article 26 of the Bylaws) are justified by the desire that access to the management decision-making body and to the most significant positions thereon is reserved to persons who have demonstrated their commitment to the Company and who, in addition, have adequate experience as members of the Board, such that continuity of the management model adopted by the Telefónica Group may be assured in the interest of all of its shareholders and stakeholders. In any event, these special requirements may be waived by broad consensus among the members of the Board of Directors, namely, with the favorable vote of at least 85 percent of its members, as provided by the aforementioned articles of the Bylaws.

F.2 When a dominant and a subsidiary company are stock market listed, the two should provide detailed disclosure on:

a) The type of activity they engage in, and any business dealings between them, as well as between the subsidiary and other group companies;

b) The mechanisms in place to resolve possible conflicts of interest.

Not applicable

F.3 Even when not expressly required under company law, any decisions involving a fundamental corporate change should be submitted to the General Shareholders' Meeting for approval or ratification. In particular:

- b) Any acquisition or disposal of key operating assets that would effectively alter the company's corporate purpose;
- c) Operations that effectively add up to the company's liquidation.

- b) Amendments to the bylaws, with votes taken on all articles or group of articles that are materially different.

v. The creation or acquisition of shares in special purpose vehicles or entities resident in countries or territories considered tax havens, and any other transactions or operations of a comparable nature whose complexity might impair the transparency of the group.

c) Transactions which the company conducts with directors, significant shareholders, shareholders with board representation or other persons related thereto ("related-party transactions").

However, board authorization need not be required for related-party transactions that simultaneously meet the following three conditions:

1. They are governed by standard form contracts applied on an across-the-board basis to a large number of clients;
2. They go through at market prices, generally set by the person supplying the goods or services;
3. Their amount is no more than 1% of the company's annual revenues.

It is advisable that related-party transactions should only be approved on the basis of a favorable report from the Audit Committee or some other committee handling the same function; and that the directors involved should neither exercise nor delegate their votes, and should withdraw from the meeting room while the board deliberates and votes.

Ideally the above powers should not be delegated with the exception of those mentioned in b) and c), which may be delegated to the Executive Committee in urgent cases and later ratified by the full board.

F.9 In the interests of maximum effectiveness and participation, the Board of Directors should ideally comprise no fewer than five and no more than fifteen members

B.1.1.

Explain

The complexity of the Telefónica Group organizational structure, given the considerable number of companies it comprises, the variety of sectors it operates in, its multinational nature, as well as its economic and business relevance, justify the fact that the number of members of the Board is adequate to achieve an efficient and operative operation.

In addition, it is important to bear in mind the Company's large number of Board committees, which ensures the active participation of all its Directors.

F.10 External directors, proprietary and independent, should occupy an ample majority of board places, while the number of executive directors should be the minimum practical bearing in mind the complexity of the corporate group and the ownership interests they control.

Complies

F.11 In the event that some external director can be deemed neither proprietary nor independent, the company should disclose this circumstance and the links that person maintains with the company or its senior officers, or its shareholders.

B.1.3

Complies

F.12 That among external directors, the relation between proprietary members and independents should match the proportion between the capital represented on the board by proprietary directors and the remainder of the company's capital.

This proportional criterion can be relaxed so the weight of proprietary directors is greater than would strictly correspond to the total percentage of capital they represent:

- 1. In large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings, but where there are shareholders with high absolute value shareholdings.**
- 2. In companies with a plurality of shareholders represented on the board but not otherwise related.**

See sections

B.1.3, A.2 and A.3

Explain:

The aforementioned recommendation number 12 refers to the composition of the group of external Directors. As stated in section B.1.3 of this Annual Corporate Governance Report, at 31 December 2012, the group of external Directors of Telefónica, S.A. was composed of 14 members (of a total of 18 Members), of whom five are proprietary Directors, seven are independent and two fall under the "other external Directors" category.

Of the five proprietary directors, two act in representation of Caja de Ahorros y Pensiones de Barcelona ("la Caixa"), which holds 5.596% of the capital stock of Telefónica, S.A., and two act in representation of Banco Bilbao Vizcaya Argentaria, S.A. (BBVA), which holds 5.753% of the capital stock, and one acts in representation of China Unicom (Hong Kong) Limited (China Unicom) which holds 1.37% of the capital stock.

Applying the proportional criteria established in article 243 of the Corporate Enterprises Act (and formerly in article 137 of the Spanish Companies Act, to which Recommendation 12 of the Unified Code refers to), regarding the total number of directors, the stakes held by "la Caixa" and BBVA are sufficient to entitle each entity to appoint a director.

Moreover, it must be taken into account that Recommendation 12 stipulates that this strict proportionality criterion can be relaxed so the weight of proprietary directors is greater than would strictly correspond to the total percentage of capital they represent in large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings, despite the considerable sums actually invested.

In this regard, Telefónica is the listed company on Spanish stock exchanges with the third highest stock market capitalization, reaching the figure of 46,375 million euros at 31 December 2012, which means a very high absolute value of the stakes of "la Caixa" and BBVA in Telefónica (that of "la Caixa" is 2,595 million euros, and that of BBVA is 2,668 million euros), which justifies the overrepresentation of these entities on the Board of Directors, rising from one member of the board each (to which they would strictly have the right in accordance with Article 243 of the Spanish Corporations Law) to two members, i.e. permitting the

appointment of just one more proprietary director over the strictly legal proportion.

On January 23, 2011, China Unicom, expanding on the existing strategic partnership, signed an extension to their Strategic Partnership Agreement with Telefónica, S.A., in which both companies agreed to strengthen and deepen their strategic cooperation in certain business areas, and committed to investing the equivalent of 500 million US dollars in ordinary shares of the other party. In recognition of China Unicom's stake in Telefónica, approval was given at Telefónica's General Shareholders' Meeting held on May 18, 2011 for the appointment of a board member named by China Unicom.

F.13 The number of independent directors should represent at least one third of all board members.

See section

B.1.3

F.14 The nature of each director should be explained to the General Meeting of Shareholders, which will make or ratify his or her appointment. Such determination should subsequently be confirmed or reviewed in each year's Annual Corporate Governance Report, after verification by the Nomination Committee. Said Report should also disclose the reasons for the appointment of proprietary directors at the urging of shareholders controlling less than 5% of capital; and explain any rejection of a formal request for a board place from shareholders whose equity stake is equal to or greater than that of others applying successfully for a proprietary directorships.

B.1.3 and B.1.4

Complies

F.15 When women directors are few or non existent, the board should state the reasons for this situation and the measures taken to correct it; in particular, the Nomination Committee should take steps to ensure that:

- a) The process of filling board vacancies has no implicit bias against women candidates;
- b) The company makes a conscious effort to include women with the target profile among the candidates for board places.

See sections

B.1.2, B.1.27 and B.2.3

Explain

In fact, the search for women who meet the necessary professional profile is a question of principle and, in this regard, it is clear that Telefónica has taken this concern on board. In this regard, it should be noted that, on January 23, 2008, the Board of Directors unanimously agreed to coopt, at the proposal of the Nominating, Compensation and Corporate Governance Committee, Ms. María Eva Castillo Sanz as an Independent Director of Telefónica. This appointment was ratified by the Ordinary General Shareholders' Meeting of Telefónica held on April 22, 2008, and she was thus appointed as a Member of the Board of the Company for a term of five years. On September 17, 2012, Ms. Eva Castillo Sanz was appointed as Chairwoman of Telefónica Europe, and therefore changed from being an Independent Director to an Executive Director.

Likewise, on December 19, 2007, the Board of Directors unanimously agreed, following a favorable report from the Nominating, Compensation and Corporate Governance Committee, to appoint Ms. María Luz Medrano Aranguren as the Deputy Secretary General and Secretary of the Board of Directors of Telefónica.

Article 10.3. of the Regulations of the Board of Directors stipulates that the Board of Directors and the Nominating, Compensation and Corporate Governance Committee shall ensure, within the scope of their respective powers, that the candidates chosen are persons of recognized caliber, qualifications and experience, who are willing to devote a sufficient portion of their time to the Company, and shall take extreme care in the selection of the persons to be appointed as Independent Directors.

Therefore, the selection procedure described above is based exclusively on the personal merits of the candidates ("recognized caliber, qualifications and experience") and their ability to dedicate themselves to the functions of members of the board, so there is no implicit bias capable of impeding the selection of women directors, if, within the potential candidates, there are women candidates who meet the professional profile sought at each moment.

F.16 The Chairman, as the person responsible for the proper operation of the Board of Directors, should ensure that directors are supplied with sufficient information in advance of board meetings, and work to procure a good level of debate and the active involvement of all members, safeguarding their rights to freely express and adopt positions; he or she should organize and coordinate regular evaluations of the board and, where appropriate, the company's chief executive, along with the chairmen of the relevant board committees.

See section

B.1.42

F.17 When a company's Chairman is also its chief executive, an independent director should be empowered to request the calling of board meetings or the inclusion of new business on the agenda; to coordinate and give voice to the concerns of external directors; and to lead the board's evaluation of the Chairman.

See section

B.1.21

Partially complies

Although there are no specific powers granted to an independent Director to these effects, the Company considers that this recommendation can be deemed as complied with for the following reasons:

- In accordance with Article 29 of the Regulations of the Board of Directors, all the Directors of the Company, including all independent Directors, may also request that a meeting of the Board of Directors be called whenever they consider it necessary, or that the items they deem appropriate be included in the Agenda.
- In addition, in accordance with article 13.3 of said Regulations, the Chairman of the Nominating, Compensation and Corporate Governance Committee –a post that shall always be given to an independent Director (article 22 of the Regulations)- and the Chairman of the Board of Directors shall be responsible for organizing and coordinating a periodic assessment of the Board.

F.18 The Secretary should take care to ensure that the board's actions:

- a) Adhere to the spirit and letter of laws and their implementing regulations, including those issued by regulatory agencies;
- b) Comply with the company bylaws and the regulations of the General Shareholders' Meeting, the Board of Directors and others;
- c) Are informed by those good governance recommendations of the Unified Code that the company has subscribed to.

In order to safeguard the independence, impartiality and professionalism of the Secretary, his or her appointment and removal should be proposed by the Nomination Committee and approved by a full board meeting; the relevant appointment and removal procedures being spelled out in the board's regulations.

II. Additional disclosures required under Article 61 bis of the Spanish Securities Market Law

Disclosure requirements under Article 61 bis of the Spanish Securities Market Law are as follows:

Securities that are admitted to trading on a regulated market in a Member State, where appropriate with an indication of the different classes of shares and, for each class, the rights and obligations attaching to it.

Not applicable.

Any restrictions on the transfer of securities and any restrictions on voting rights.

Nothing in the Company By-Laws imposes any restriction or limitation on the free transfer of Telefónica shares.

According to Article 21 of the Company's Bylaws, no shareholder can exercise votes in respect of more than 10 per cent of the total shares with voting rights outstanding at any time, irrespective of the number of shares they may own. This restriction on the maximum number of votes that each shareholder can cast refers solely to shares owned by the shareholder concerned and cast on their own behalf. It does not include additional votes cast on behalf of other shareholders who may have appointed them as proxy, who are themselves likewise restricted by the 10 per cent voting ceiling.

The 10 per cent limit described above also applies to the number of votes that can be cast either jointly or separately by two or more legal entity shareholders belonging to the same corporate group and to the number of votes that may be cast altogether by an individual or legal entity shareholder and any entity or entities that they directly or indirectly control and which are also shareholders.

In relation to the above and in accordance with the provisions of article 527 of the Corporate Enterprises Act, any clauses in the bylaws of listed corporations that directly or indirectly restrict the number of shares that may be cast by a single shareholder, the companies belonging to the same group or by any parties acting together with the aforementioned, will be rendered null and void when, subsequent to a takeover bid, the buyer has a stake equal to or over 70% of share capital which confers voting rights, unless the buyer was not subject to neutralization measures to prevent a takeover bid or had not adapted these measures accordingly.

Rules governing the amendment of the article of association.

The procedure for amending the Bylaws is regulated by sections 285 et seq. of the consolidated text of the Corporate Enterprises Act, according to which changes in the Company's By-Laws must be decided by the Shareholders' Meeting with the majorities stipulated in sections 194 and 201 of the abovementioned Act. Also, the directors shall draft and put at the disposal of the shareholders, the requested report with the wording of the proposed amendment in full justifying the proposal. Article 14 of the By-Laws and article 5 of the Regulations for the General Shareholders' Meeting expressly include, among the powers of shareholders acting at a General Shareholders' Meeting, that of amending the By-Laws.

Article 21 of the Regulations for the General Shareholders' Meeting regulates the voting procedure for the proposals, stating that, in the case of amendments to the By-Laws, when a single item on the agenda includes different matters, such matters shall be separately submitted to a vote.

Significant agreements to which the company is a party and which take effect, alter or terminate upon a change of control of the company following a takeover bid and the effects thereof.

The Company has no significant agreements outstanding that would take effect, alter or terminate in the event of a change of control following a Takeover Bid.

Agreements between the Company and its board members and executives or employees providing for compensation if they are made redundant without valid reason following a takeover bid.

In general, the contracts of Executive Directors and some managers of the executive team include a clause giving them the right to receive the economic compensation indicated below in the event that their employment relationship is ended for reasons attributable to the Company and/or due to objective reasons such as a change of control in the Company. However, if the employment relationship is terminated for a breach attributable to the executive director or executive, he/she will not be entitled to any compensation whatsoever. That notwithstanding, in certain cases the severance benefit to be received by the Executive Director or Executive, according to their contract, does not meet these general criteria, but rather are based on other circumstances of a personal or professional nature or on the time when the contract was signed. The agreed economic compensation for the termination of the employment relationship, where applicable, consists of a maximum of three times annual salary plus another year based on length of service at the Company. The annual salary on which the indemnity is based is the last fixed salary and the arithmetical mean of the sum of the last two payments received by contract.

Meanwhile, contracts that tie employees to the Company under a common employment relationship do not include indemnity clauses for the termination of their employment. In these cases, the employee is entitled to any indemnity set forth in prevailing labor legislation. This notwithstanding, contracts of some Company employees, depending on their level and seniority, as well as their personal or professional circumstances or when they signed their contracts, establish their right to receive compensation in the same cases as in the preceding paragraph, generally consisting of a year and a half of salary. The annual salary on which the indemnity is based is the last fixed salary and the average amount of the last two variable payments received by contract.

A description of the main characteristics of the internal control and risk management systems with regard to statutory financial reporting.

A. The entity's control environment

A.1

The Board of Telefónica, S.A. (hereinafter Telefónica) assumes the ultimate responsibility of ensuring that an adequate and effective internal control over financial reporting system (ICFRS) exists and is updated.

Pursuant to Law and the Company's By-laws, the Board of Directors is the Company's most senior governing body and representative, and is therefore authorized within the corporate purpose laid down in the By-laws, to perform all acts and legal transactions of administration and disposal, by any legal title, except those reserved by Law or the Company's By-laws for the shareholders in a General Meeting.

Without prejudice to the aforementioned, the Board of Directors basically consists of a supervisory and control body, while the executive bodies and management team are responsible for the day-to-day management of the Company's businesses.

The Regulations of the Board of Directors state that the primary duty of the Audit and Control Committee shall be to support the Board of Directors in its supervisory duties. Specifically, it shall have at least the following powers and duties:

- To supervise the process of preparing and submitting financial information. In this regard, to supervise the process of preparation and the integrity of the financial information related to the Company and the Group, reviewing compliance with the regulatory requirements, the proper determination of the scope of consolidation, and the correct application of the accounting standards.
- To supervise the effectiveness of the Company's internal control system and risk management systems, and to discuss with the auditors significant weaknesses in the internal control system detected during the audit. With respect thereto, it shall be responsible for proposing to the Board of Directors a risk control and management policy, which shall identify at least the following types of risk (operational, technological, financial, legal and reputational) which the company faces; the level of risk which the company deems acceptable; the measures for mitigating the impact of the identified risks should they materialize; and the control and information systems to be employed to control and manage said risks.
- Establish and maintain appropriate relations with the External Auditor to receive information on those matters that may jeopardize the independence thereof, for consideration by the Audit and Control Committee, and any other related to the development of the audit process, as well as any other communications provided for in audit legislation and technical standards of audit.
- Issue annually, prior to the issuance of the audit report, a report that will express an opinion on the independence of the External Auditor
- To supervise internal audit and, in particular: to ensure the independence and efficiency of the internal audit function; to receive periodic information on its activities; and to verify that the senior executive officers take into account the conclusions and recommendations of its reports.

The Audit and Control Committee shall meet monthly and as often as appropriate.

In order to carry out this supervisory function, the Audit and Control Committee is assisted by the Internal Audit department which periodically submits its activities report to the Committee.

A.2

The different areas and functional units of the Telefónica Group play a key role in ICFR as they are responsible for preparing, maintaining and updating the different procedures that govern their operations and identify the tasks to be carried out, as well as the persons in charge of the same.

The Board of Directors is responsible for designing and reviewing the Company's organizational structure, ensuring there is an adequate separation of functions and that satisfactory coordinating mechanisms among the different areas are established.

Use of the Telefónica Group's economic-financial IT system is regulated through several manuals, instructions and internal rules and regulations, the most noteworthy of which are as follows:

Accounting Policies and Measurement Criteria Manual, designed to unify and standardize the accounting criteria and policies used by all the Group companies to ensure Telefónica operates as a consolidated and uniform group.

Instructions for closing and external audits, published annually to establish the procedures and schedule all Telefónica Group companies and their auditors must follow when reporting financial and accounting information in order to elaborate the consolidated financial information of the Group by the Financial Consolidation Department to comply with Telefónica, S.A.'s legal and reporting requirements in Spain and the other countries in which its shares are listed.

Annual calendar of financial accounting information, applicable to all Telefónica Group companies to establish the monthly accounting-financial reporting dates at the start of each period.

The regulations also define and delimit responsibilities at each level of the organization regarding the reliability of the information published.

With regard to the principles which guide the Company's actions, we would note that in December 2006, the Telefónica Group approved a **code of conduct and business ethics**, "The Telefónica Business Principles," which are applicable to all Group employees and all organizational levels (management and non-management). The Business Principles are available on the Telefónica Group intranet and there are procedures in place to update, monitor and disseminate these throughout the Telefónica Group. They expressly mention issues regarding recording transactions and preparation of financial information.

A specially-designed committee is responsible for monitoring these Business Principles. This Committee meets periodically and comprises representatives from Telefónica's Human Resources, Reputation, General Secretariat and Group Internal Audit departments, as well as representatives from each of the geographical areas in which Telefónica is present.

As part of its remit, this Committee coordinates the activities of the various business areas, with particular emphasis on monitoring the actions inherent in the Business Principles. For example, as the Internal Audit area is involved, it is able to answer potential queries regarding the need to carry out specific actions should notifications of failure to comply with the Business Principles be received. Also, through this Committee, its members agree on ways to help disseminate the Business Principles to the Group, as well as monitoring communication and training initiatives in this matter. For this last initiative, and as part of the on-line training platform, there is a specific course on these principles. By taking part in this abovementioned course, employees pledge to adhere to these business principles.

Also, since April 2004 the Telefónica Group has a **complaints channel** which can be accessed directly via the Telefónica intranet. This was approved by the Audit and Control Committee and Group employees were notified according to the established procedures. This complaints channel allows all Telefónica Group employees to report, anonymously if chosen, two types of irregularities:

- **Any irregularities** detected in the internal control system, accounting or the audit of the financial statements. These are reported directly to the Secretary of the Telefónica Audit and Control Committee.
- **Other irregularities**, including those related to the Business Principles. These complaints are reported either to the Business Principles office or the Internal Audit Department.

The Telefónica Audit and Control Committee receives all complaints regarding internal controls, accounting or the audit of the financial statements. All complaints of this nature will be treated and resolved by the Committee appropriately.

Telefónica, S.A. also has "Internal Code of Conduct for Securities Markets Issues" setting out the general guidelines and principles of conduct for the persons involved in securities and financial instrument transactions.

With regard to employee training in financial and control issues, we would note that in 2007 the **Telefónica Corporate University** (Universitas Telefónica) was opened to help contribute to the Telefónica Group's advancement through lifelong learning. All the University's training programs are based on developing the corporate culture, the business strategy and management and leadership skills. Personnel involved in preparing and reviewing financial information are also offered refresher courses in this area.

Likewise, the Telefónica Accounting Policies Department offers training plans and seminars to all personnel working in the Group's financial areas and other pertinent areas (Tax, M&A, etc.), with the aim of informing them of any accounting or financial changes which are applicable to their job of preparing consolidated financial information.

Finance personnel also attend technical sessions run by external consultancy firms and covering developments in accounting.

Finally, the Telefónica Group also has an on-line training platform which includes a finance school providing specific training and refresher courses on financial information, as well as an internal control school providing instruction on auditing, internal control and risk management.

B. Risk assessment in financial reporting

Given the vast number of processes involved in financial reporting at the Telefónica Group, a model has been developed to select the most significant processes by applying a so-called Scope Definition Model. This model is applied to the financial information reported by subsidiaries or companies managed by Telefónica. The model selects the accounts with the largest balance or difference and identifies the processes used to generate this information. Once the processes have been identified, the risks inherent in the processes affecting financial reporting are analyzed. This identification procedure covers all the financial reporting objectives of existence and occurrence, completeness, valuation, presentation, disclosure and fraud. Risk identification is carried out on an annual basis.

Telefónica also has a Risk Management Model covering four key areas of risk:

- Business risks
- Operational risks
- Global risks
- Financial risks

Financial risks include risks associated with the accuracy, completeness and publication of reporting information.

In the process of identifying the consolidation scope, the Telefónica Consolidation Department periodically monitors the changes in the Group's scope.

C. Control activities

On March 26, 2003 the Telefónica Board approved the "Regulations governing disclosure and reporting to the markets". These regulate the basic principles of operation of the financial disclosure control processes and systems which guarantee that all relevant consolidated financial information is communicated to the company's senior executives and its management team, assigning to the Internal Audit the duty of periodically assessing the functioning of these processes and systems.

Each quarter the Finance Department submits the periodic financial information to the Audit and Control Committee, highlighting the main events and accounting criteria applied and clarifying any major events which occurred during the period.

Likewise, the Telefónica Group has documented financial processes in place which stipulate common criteria for preparing financial information in all Group companies, as well as any outsourced activities.

The Company follows documented procedures for preparing consolidated financial information whereby those employees responsible for the different areas are able to verify this information. In this regard, there is a Coordination and Control Committee comprising employees responsible for these areas. They are able to submit the results of their reviews in order to correctly prepare the financial information presented to the Company's bodies (Audit and Control Committee and, if applicable, the Board of Directors).

Also, and pursuant to the internal regulations, the Executive Chairmen and the Finance Directors must submit a certificate to the Corporate Finance Department stating that they have reviewed the financial information being presented, that the financial statements give a true and fair view, in all material respects, of the financial position, results and cash position, and that there are no significant risks to the business or unhedged risks which may have a material impact on the Company's equity and financial position.

In relation to the accounting close, the Consolidation and Accounting Policies Department issues instructions setting out the calendar and contents for the financial reporting period for the preparation of the consolidated annual financial statements. These instructions are mandatory for all Telefónica consolidation subgroups and subsidiaries.

The Corporate Finance Department reviews the key judgments, estimates, valuations and forecasts to identify critical accounting policies that require the use of estimates and value judgments. In these cases, the Corporate Finance Department also establishes the necessary operational co-ordination actions with the rest of the Telefónica Group units for their specific areas of activity and knowledge before presenting them to the Audit and Control Committee. The most relevant are dealt with by the Audit and Control Committee. Senior management defines the format for presenting the annual financial statements prior to approval by the Board.

The critical processes involved in financial reporting at the Telefónica Group, as well as its controls, are evaluated by the internal audit function, which looks at the degree of documentation and revision, as well as its operation. In order to establish an adequate evaluation process, the Telefónica Group has three general levels, which are applied according to the type of controls, the level of risk of the processes or the activities being evaluated: General Evaluation Model, Self-Appraisal Questionnaires (to determine the degree of internal control in all Group companies, even those which are considered less significant in terms of their contribution to the consolidated financial figures) and Focused Tests (a tool used to evaluate the general controls of the ICFR).

The General Evaluation Model follows the same working scheme for each company listed on a foreign exchange: critical accounts are defined based on their materiality; the processes and systems associated with the critical accounts are identified; the risks and controls inherent in financial reporting associated with these processes are identified; the controls are evaluated; audit testing is carried out and should any incidences in the effectiveness of them be detected, recommendations are proposed to guarantee the correct functioning of ICFR.

The Global IT systems department of the Telefónica Group is responsible for the IT systems at all the Group's businesses. One of its many and various duties is to define and implement policies and security standards for applications and infrastructures (in conjunction with the Security and Networks departments), which includes IT aspects of the internal control model.

In the Telefónica Group the Internal Audit is charged with monitoring the general controls over the IT systems. The processes for controlling the IT systems are grouped into 22 general control objectives, which in turn are grouped together in the following four categories: **Physical security** (security at the data processing center and facilities, information backup, contingency plans, information recovery in the event of disasters and business continuity at the different data processing centers and IT facilities); **Logistics security** (program access control, user applications and data handling control, productive database data access control, and appropriate separation of duties); **Systems development** (methodology for developing and maintaining systems, controls inherent in an application, methodological steps for applications, project start-up); and **Systems operation** (non-programmed tasks, application testing, interruption monitoring, and incident management).

When a process or part of a process concerning financial information is outsourced, suppliers are requested to present the ISAE 3402 certificate or controls are established within these processes to ensure they function correctly.

When Telefónica or any of its subsidiaries engage the services of an independent expert whose findings may materially affect the consolidated financial statements, as part of the selection process the competence, training, credentials and independence of the third party is verified directly by the area contracting the service and, if applicable, the procurement department. The finance department has control activities in place to guarantee the validity of the data, the methods used and the reasonableness of the assumptions used by the third party.

Likewise, there is an internal procedure for engaging independent experts which requires specific levels of approval.

D. Information and Communication

The Consolidation and Accounting Policies Department of Telefónica is charged with defining and updating the accounting policies used for preparing the consolidated financial information.

Thus, this area publishes IFRS (International Financial Reporting Standards) information bulletins summarizing the main changes to accounting methodology, as well as clarifications on various other related issues.

Also, the Telefónica Group has an Accounting Policies Manual which is updated periodically. The objectives of this manual are: to align the corporate accounting principles and policies with IFRS; to maintain accounting principles and policies which ensure that the information is comparable within the Group and offers optimum management of the source of information; to improve the quality of the accounting information of the various Group companies and of the Consolidated Group by disclosing, agreeing and introducing accounting principles which are unique to the Group; and to facilitate the accounting integration of acquired and newly-created companies into the Group's accounting system by means of a reference manual.

This Manual is mandatory for all companies belonging to the Telefónica Group, and shall be applied to their reporting methods when preparing the consolidated financial statements.

There is also a **Compliance Manual for Consolidation Reporting**, which includes specific instructions on preparing the disclosures which comprise the reporting for the consolidation of the Telefónica Group's financial statements and the preparation of consolidated financial information.

Likewise, the Telefónica Group uses a specific IT tool for the reporting of the individual financial statements at its various subsidiaries, as well as the necessary notes and disclosures for preparing the consolidated annual financial statements. This tool is used to carry out

the consolidation process and its subsequent analysis. The system is managed centrally and uses the same accounts plan.

E. Monitoring

Telefónica is listed on the New York Stock Exchange and is therefore subject to the regulatory requirements established by the US authorities applicable to all companies trading on this exchange.

Among these requirements is the "Sarbanes-Oxley Act" and, specifically, Section 404 which stipulates that all listed companies must evaluate on an annual basis the effectiveness of its ICFR procedures and structure.

As noted above, the Telefónica Group has an Internal Audit function which reports hierarchically (to the General Secretariat and the Board) and functionally (to the Audit and Control Committee). Its activities include ensuring compliance with applicable laws, internal regulations and the principles of the Group's Code of Ethics; safeguarding the equity's assets, the efficiency and effectiveness of operations, the reliability of the information, controlled transparency with third parties and safeguarding the image of the Telefónica Group.

The Audit and Control Committee also provides support in monitoring the correct functioning of the ICFR system. The system is monitored twice a year in order to offer a preliminary assessment to help resolve any major incidences in advance by establishing the corresponding action plans for the managers in charge.

In 2012, the Audit and Control Committee was informed of the findings of the ICFRS review which directly affected 19 companies, 266 material accounting items, 588 critical processes and 205 IT systems, with a total of 4,854 control activities reviewed.

In order to assess the status of the general controls at Telefónica, "Focused Tests" have been carried out to analyze the controls established by the Company's management which are more closely associated with the general control environment and apply to all of the Company's processes. A total of 25 control objectives were reviewed.

Also, Self-Appraisal Questionnaires have been filled out by the employees in charge of the 268 Group companies certifying their assessment of a series of issues related to internal control in their area of responsibility.

The results of the final appraisal were presented at the February 2012 meeting of the Audit and Control Committee. No material weaknesses or significant shortcomings in the ICFR structure and procedures were identified.

Each year the External Auditor issues its own opinion on the effectiveness of ICFR. At the date of this report, the External Auditor has not notified the Audit and Control Committee of the existence of any control shortcomings which constitute material weaknesses or significant deficiencies.

Furthermore, the External Auditor participates regularly in the Audit and Control Committee meetings, when called to do so by the Committee, to explain and clarify different aspects of the audit reports and other aspects of its work.

F. External auditor review

The attached information on ICFR has been submitted to review by the External Auditor, whose report is attached as an appendix to this document.

This Appendix to the Telefónica, S.A. 2012 Annual Report on Corporate Governance was originally prepared in Spanish. In the event of a discrepancy, the Spanish-language prevails.

AUDITOR'S REPORT ON THE DESCRIPTION OF THE INTERNAL CONTROL OVER FINANCIAL REPORTING SYSTEM (SCIIF IN SPANISH)

To the Board of Directors of
Telefónica, S.A., engaged by the management:

We have examined the accompanying description of the Internal Control over Financial Reporting System (SCIIF in Spanish) of Telefónica, S.A. (the Parent Company) and its subsidiaries (the Group), which is included in Section II of the Appendix to the Annual Corporate Governance Report for the year ended December 31, 2012, in the "Description of the main characteristics of the internal control and risk management systems with regard to statutory financial reporting." This examination has included the evaluation of the effectiveness of Internal Control on the Financial Reporting System regarding the financial information included in the Group's consolidated financial statements at December 31, 2012, prepared in accordance with International Financial Reporting Standards, as adopted by the European Union, and other provisions in the regulatory framework applicable to the Group. This system is based on the criteria and policies defined by the Parent Company's management in accordance with the guidelines established by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in its report "Internal Control - Integrated Framework."

Telefónica, S.A.'s management is responsible for maintaining effective internal control over financial reporting included in the consolidated financial statements, and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on the aforementioned effectiveness of internal control over financial reporting, based on the work we have performed in accordance with the requirements of the Standard ISAE 3000 "Assurance Engagement Other than Audits or Reviews of Historical Financial Information" issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC) for the issuance of reports to obtain reasonable assurance.

The work performed to obtain reasonable assurance includes obtaining an understanding of the internal control over financial reporting system regarding the financial information included in the consolidated financial statements, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we consider necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements, fraud or illegal acts. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Telefónica, S.A. and subsidiaries maintained, in all material respects, effective internal control over financial reporting regarding the financial information included in the consolidated financial statements as of December 31, 2012, based on the criteria and policies defined by the Parent Company's management in accordance with the guidelines established by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in its report "Internal Control - Integrated Framework." We also have checked that the disclosures included in the accompanying description of the Internal Control over Financial Reporting System (SCIIF in Spanish) at December 31, 2012 comply, in all material respects, with the requirements of Securities Market Law 24/1988 of July 28, as amended by Law 2/2011, of March 4, on Sustainable Economy, and meets the minimum content required by the Draft Circular published on October 26, 2011 by the National Securities Market.

The examination indicated in the preceding paragraphs is not subject to the Consolidated Spanish Audit Law, approved by Royal Legislative Decree 1/2011 of July 1, so we do not express an audit opinion in the terms provided for in the aforementioned Law.

In addition to the aforementioned examination, we have audited, in accordance with prevailing audit regulations in Spain, the consolidated financial statements of Telefónica, S.A. and its subsidiaries at December 31, 2012, prepared by the Parent Company's Directors in accordance with International Financial Reporting Standards, as adopted by the European Union, and other provisions in the regulatory framework applicable to the Group, and our report dated March 20, 2013 expressed an unqualified opinion on the aforementioned consolidated financial statements.

Board of Directors'
Compensation
Policy Report

Report on the compensation policy of the Board of Directors of Telefónica, S.A.

I. Introduction

The compensation of members of Boards of Directors has become highly significant and one of the most-heavily regulated aspects of corporate governance at listed companies.

In recent years, many recommendations have been published on this matter in order, among other goals, to establish an ever closer link between compensation and the creation of value for the shareholders and to ensure the long-term financial sustainability of companies – avoiding schemes that could encourage excessive risk-taking – as well as to increase the information provided by companies to their shareholders and the markets as a whole concerning the compensation paid to the members of their Boards of Directors.

In Spain, following publication of the first Good Governance Code by the National Securities Market Commission (Comisión Nacional del Mercado de Valores) in 1997 and the approval of Law 26/2003 of July 17, amending Law 24/1988 of July 28 on the Securities Market and the restated text of the Companies Act (Ley de Sociedades Anónimas) in order to enhance the transparency of such companies, the National Securities Market Commission approved the Unified Good Governance Code for listed companies in 2006.

Such Code was created in order to compile and further develop the corporate governance principles published to that date and to have Spanish companies include in their practices European Commission Recommendations 2004/913/EC of December 14, 2004 and 2005/162/EC of February 15, 2005 in connection with certain aspects of the compensation of the members of the Boards of Directors of listed companies. Such Code included the following recommendations regarding compensation, among others:

- That the Board of Directors approve a compensation policy that, at a minimum, establishes the amount of fixed components, variable compensation items, the main features of benefit systems and the conditions to be observed by the contracts of those performing Senior Management duties as Executive Directors.
- That the Board of Directors put a report on the Director compensation policy to a consultative vote at the next Ordinary General Shareholders' Meeting, as a separate item on the agenda, and that such report be made available to the shareholders.

The aforementioned recommendations were subsequently made a part of Spanish law through the approval of Law 2/2011 of March 4 on Sustainable Economy, which amends Law 24/1988 of July 28 on the Securities Market and adds two new sections, 61 bis and 61 ter.

This duty has been set forth in the internal regulations of Telefónica, S.A. ("Telefónica" or the "Company"). In fact, pursuant to Article 36 of the Regulations of the Board of Directors of Telefónica, each year the Board must approve, at the proposal of the Nominating, Compensation and Corporate Governance Committee, a Report on the Compensation of Directors, providing a description of the Company's compensation policy approved by the Board for the current year (in this case, for fiscal year 2013) and of any policy approved for future years. Such Report must also include an overall summary of the compensation system applied during the prior fiscal year (i.e., the application of the aforementioned policy in 2012) as well as a breakdown of the individual compensation accruing to each of the Directors.

The policy regarding compensation of the Board of Directors of Telefónica has been formulated in accordance with the provisions of the By-Laws and the Regulations of the Board of Directors.

Furthermore, within the context of a process of continuous improvement of its compensation system and of adherence to best market practices, Telefónica has reviewed the requirements and recommendations established in the new regulatory framework applicable to listed corporations.

Consequently, based upon a proposal made by the Nominating, Compensation and Corporate Governance Committee, this Report was approved by the Board of Directors of the Company at its meeting of February 27, 2013.

To prepare this document, the Board drew on the advice and cooperation of the Company's Directorate of Corporate Human Resources, as well as on the assistance of the Human Capital Services Division of J&A Garrigues, S.L.P.

As provided by Article 36 of the Regulations of the Board of Directors, this Report will be made available to the shareholders on the occasion of the call to the Ordinary General Shareholders' Meeting of the Company and will be submitted to a consultative vote of the shareholders as a separate item on the agenda.

II. Director compensation policy for the current year

This section contains a thorough description of the Director compensation policy applicable in the current year 2013, including (i) a summary of the regulatory sources thereof and of the decision-making process (sub-section A); (ii) a reference to the principles underpinning the compensation system (sub-section B); and (iii) a breakdown of the compensation structure and of the various compensation items of which the system consists, together with information on the standards to be followed for application of the policy during the current fiscal year (sub-section C).

A. Process of preparation of the compensation system and policy

The compensation system and policy applicable to the Board of Directors of Telefónica, as well as the process of preparation thereof, are established in the By-Laws (Article 28) and in the Regulations of the Board of Directors (Article 35) of the Company. Pursuant to such texts, the Board of Directors, at the proposal of the Nominating, Compensation and Corporate Governance Committee, determines, within the maximum limit set by the shareholders at the Ordinary General Shareholders' Meeting of the Company, the amount that the Directors are to receive for discharging the duties of supervision and collective decision-making inherent in the position of Director.

In addition to and independently of the compensation mentioned above, the By-Laws also provide that the shareholders at the Ordinary General Shareholders' Meeting may approve the establishment of compensation systems for the Directors that are linked to the listing price of the shares or that entail the delivery of shares or of stock options.

The aforementioned compensation, deriving from membership on the Board of Directors of Telefónica, is compatible with other compensation received by the Directors by reason of the executive duties they perform at the Company or by reason of any other advisory duties they may perform for the Company, other than those inherent in their capacity as Directors.

To determine the amount to be paid to the Directors, the Board of Directors endeavors to ensure, at all times, that the compensation of the Directors is commensurate with that paid at comparable companies in the market in terms of volume, size and/or business, and that any variable compensation takes into account the professional performance of the beneficiaries and the performance of the Company itself and does not merely stem from the circumstances prevailing in the market.

In addition, the Nominating, Compensation and Corporate Governance Committee performs an annual review of the Director compensation policy, in order to propose to the Board of Directors, if required, the adoption of any resolutions deemed appropriate in connection with this matter.

In determining the compensation amounts, the Board of Directors of the Company also takes into account the responsibility and the level of commitment entailed by the role that each Director is called upon to play, as well as market requirements, using standards of moderation

for such purpose that have been duly verified by reports provided by professional experts on the matter. In this regard, and pursuant to the guidelines for action set forth in Article 7 of the Regulations of the Board of Directors, the Board carries out its duties in accordance with the corporate interest, meaning the interests of the Company.

The important role played by the Nominating, Compensation and Corporate Governance Committee in the determination of the compensation system and policy applicable to the Directors is worthy of mention. Article 22.b) of the Regulations of the Board of Directors of the Company provides that such Committee shall have the following powers and duties, among others, and without prejudice to any other tasks that the Board of Directors may assign thereto:

1. To report, following standards of objectivity and conformity to the corporate interest, on the proposals for appointment, re-election and removal of Directors and Senior Executive Officers of the Company and its Subsidiaries, and evaluate the qualifications, knowledge and experience required of candidates to fill vacancies.
2. To report on the proposals for appointment of the members of the Executive Commission and of the other Committees of the Board of Directors, as well as the Secretary and the Deputy Secretary.
3. To organize and coordinate, together with the Chairman of the Board of Directors, a periodic assessment of the Board, pursuant to the provisions of Article 13.3 of the Regulations of the Board of Directors.
4. To propose to the Board of Directors, within the framework established in the By-Laws, the compensation for the Directors, and review it periodically to ensure that it is in keeping with the tasks performed by them, as provided in Article 35 of the Regulations of the Board of Directors.
5. To propose to the Board of Directors, within the framework established in the By-Laws, the extent and amount of the compensation, rights and remuneration of a financial nature of the Chairman, the Executive Directors and the Senior Executive Officers of the Company, including the basic terms of their contracts, for purposes of contractual implementation thereof.
6. To prepare and propose to the Board of Directors an annual report regarding the Director compensation policy.
7. To supervise compliance with the Company's internal codes of conduct and the corporate governance rules thereof in effect from time to time.

As regards its composition, Article 22.a) of the Regulations of the Board of Directors provides that the Nominating, Compensation and Corporate Governance Committee shall consist of not less than three nor more than five Directors appointed by the Board of Directors. All members of such Committee must be External Directors, and the majority thereof must

be Independent Directors. The aforementioned article also provides that the Chairman of this Committee shall in all events be an independent Director, appointed from among its members.

In this connection, and fully in compliance with the above-cited provisions, the Nominating, Compensation and Corporate Governance Committee is currently made up as follows:

- Mr. Alfonso Ferrari Herrero (Chairman)
(External Independent Director)
- Mr. Carlos Colomer Casellas
(External Independent Director)
- Mr. Peter Erskine
(External Independent Director)
- Mr. Gonzalo Hinojosa Fernández de Angulo
(External Independent Director)
- Mr. Pablo Isla Álvarez de Tejera
(External Independent Director)

There were no changes in the composition of the Nominating, Compensation and Corporate Governance Committee during 2012.

All of the Directors have a proven capacity to serve on the Committee, based on their broad experience and their expertise in compensation or senior management matters.

In addition, the meetings of such Committee are customarily attended, in addition to the members thereof, by the members of Telefónica's management team who, because of their duties and the responsibilities assigned to them, can provide support and assistance to the members of the Committee on the matters reviewed at each of its meetings.

As far as the operation of the Nominating, Compensation and Corporate Governance Committee is concerned, it meets as many times as is deemed appropriate to review the matters within its purview (in most cases, prior to a meeting of the Board of Directors of Telefónica), when called by the Chairman of the Committee.

A valid quorum of the Committee shall exist with the presence, in person or by proxy, of at least one-half of its members, and resolutions are adopted by the majority of those present. In the event of a tie, the Chairman has the tie-breaking vote.

Specifically, in 2012, the Nominating, Compensation and Corporate Governance Committee held 11 meetings. Among the matters the Committee reviewed, discussed and studied at the meetings held during the fiscal year, the following are worthy of note:

1. Proposed Appointments relating to the Board of Directors and the Committees thereof and to the Boards of Directors of Subsidiaries:

During the meetings held and exercising the powers assigned thereto, the Committee reviewed and reported on the proposed appointments of Directors, of members of the Committees of the Board of Directors of Telefónica and of Directors at its most significant Subsidiaries.

2. Proposed Appointments relating to Senior Executive Officers and Organizational Changes:

The Committee reviewed and reported on proposals relating to the Senior Executive Officers of the Company and of its Subsidiaries, and reviewed the proposed appointments and the qualifications and professionalism of candidates, along with their CVs and their track record within and outside of the Company.

3. Compensation System for Directors and Senior Executive Officers:

At various meetings, the Committee reviewed the current compensation of the Board of Directors (and reported favorably, as explained below, on the 20% reduction in the amounts received by the members of the Board in their capacity as such, approved by the Board of Directors on July 25, 2012), as well as the variable compensation for fiscal year 2011, the variable compensation system for 2012 and the review of fixed compensation for fiscal year 2012.

In addition, the Committee reviewed and analyzed the proposal of the Directorate of Corporate Human Resources of Telefónica in connection with various aspects of the Long-Term Incentive Plan, known as the Performance & Investment Plan (PIP), approved by the shareholders at the Ordinary General Shareholders' Meeting of the Company on May 18, 2011, for members of the management team of the Telefónica Group (Executive Directors, members of the Executive Committee of Telefónica and other Executive Officers).

B. Description of the basic objectives of the compensation system and policy

As regards the basic objectives of the compensation system and policy applicable to the Directors of Telefónica, a distinction must be made between External Directors (who do not perform any executive duties within the Telefónica Group) and Executive Directors, who perform senior management duties or are employees of the Company or of its Group.

1. External Directors

As far as External Directors are concerned (i.e., proprietary, independent and other external Directors), the aim of the compensation policy is to adequately compensate the Directors for their professional merit and experience, as well as for the dedication provided and the responsibility assumed by them, seeking to ensure that the compensation paid does not compromise their independence.

2. Executive Directors

The basic standard underlying Telefónica's compensation policy for Executive Directors is to establish compensation packages that will make it possible to attract, retain and motivate the most distinguished professionals, so as to enable the Company to achieve its strategic objectives within the ever more competitive and internationalized scenario in which it operates.

Considering the foregoing, the principles that govern Telefónica's compensation policy are the following:

- (i) Transparency: Telefónica considers transparency in compensation to be a fundamental principle of corporate governance, and has been publishing the Report on the Compensation Policy of the Board of Directors since 2008.
- (ii) Competitiveness: Telefónica seeks to ensure that the compensation package of its Executive Directors, in terms of structure and overall amount, is competitive with that of comparable international entities at the international level, in order to have the best professionals in the market.

- (iii) Link between compensation and results: a significant portion of the total compensation of the Executive Directors of Telefónica is variable, and receipt thereof is tied to the achievement of pre-established, specific and quantifiable financial, business and value-creation objectives aligned with the Company's interests.
- (iv) Creation of value for the shareholders: the goal of Telefónica's compensation policy is to create value for the shareholders in a manner that is sustainable over time.

To that end, the Company has established variable compensation schemes, tied to objectives relating to the creation of value in the medium and long term, that foster the acquisition of equity interests by the Executive Directors and the alignment of their interests with those of Telefónica's shareholders.

C. Structure of Director compensation

Based on the foregoing, below is a description of the structure established for the compensation of Directors:

1. Structure of the Compensation of Directors for their Activities as Such

The compensation accruing to the Directors for their activities as such is structured, within the framework established by the law and the By-Laws, in accordance with the standards and compensation items described below, within the maximum limit determined for such purpose by the shareholders acting at the Ordinary General Shareholders' Meeting, pursuant to the provisions of Article 28 of the By-Laws.

In accordance with the foregoing, the shareholders acting at the Ordinary General Shareholders' Meeting held on April 11, 2003 set the sum of 6 million euros as the annual gross maximum amount of the compensation to be received by the Directors in their capacity as members of the Board of Directors. It is not planned to submit a modification of this maximum amount to the shareholders at the Ordinary General Shareholders' Meeting to be held during the current fiscal year, and therefore, such limit will in principle continue to apply to the compensation that the Directors will receive this year in their capacity as such.

It falls upon the Board of Directors to set the exact amount to be paid within the aforementioned limit and to decide how it is to be distributed among the Directors. In fiscal year 2007, the Nominating, Compensation and Corporate Governance Committee, in the performance of the duties assigned thereto and based on current market information, carried out a review of the standards for distribution of the compensation established for the Directors of the Company for serving as such and submitted to the Board of Directors a proposal for review of the compensation to be received by the Directors for their membership on the Board of Directors, in the Executive Commission and in the Advisory or Control Committees thereof, because the amount established during fiscal year 2004 had not been modified since then.

The compensation paid to the Directors of Telefónica for serving on the Board of Directors, the Executive Commission and/or the Advisory or Control Committees consists of a fixed amount, payable monthly, and of attendance fees for attending the meetings of the Advisory or Control Committees.

Finally, the Board of Directors of the Company, upon a prior proposal of the Nominating, Compensation and Corporate Governance Committee and acting in line with current international policies and best practices of corporate governance in the compensation of executives, resolved that, beginning in September 2007, the Members of the Board who have the status of Executive Directors of the Company are to receive only the

amounts to which they are entitled for performance of their executive duties, in accordance with the provisions of their respective contracts.

A breakdown of such distribution standards can be found in sub-section IV.1 below.

1.1. Fixed Amount

Each Director receives a fixed monthly amount, commensurate with market standards, according to the positions held on the Board and the Committees thereof.

It is stated for the record that, as of the date hereof, provision is made for payment of a fixed amount for sitting on the Board of Directors, the Executive Commission and the Advisory or Control Committees, on the terms and conditions described later in this Report.

1.2. Attendance Fees

Directors are entitled to be paid specified amounts as attendance fees. However, as of the date hereof, Directors only receive fees for attending meetings of the Advisory or Control Committees, as further explained below.

1.3. Other Compensation

It should be noted that some Directors are members of: (i) certain management decision-making bodies of some Subsidiaries and affiliates of Telefónica, and receive the compensation established by such bodies for their directors, and (ii) various Territorial Advisory Councils and the Advisory Council of the Corporate University, and receive the compensation established for such duties.

In addition, at present Directors do not receive, merely for serving as such, any compensation as pension or life insurance, nor do they participate in compensation plans tied to the listing price of Telefónica's shares, even though such form of compensation is contemplated in the By-Laws of the Company.

2. Structure of the Compensation of Executive Directors

The compensation payable to Executive Directors for the performance of executive duties at the Company consists of (i) fixed compensation, (ii) variable short-term (annual) compensation, (iii) variable medium- and long-term compensation, (iv) benefits and (v) other compensation.

In order to determine the total compensation package of the Executive Directors of the Company, and considering the size of the Telefónica Group and its multinational character, the largest European multinational companies are taken as the main reference; the Dow Jones Global Titans 50 index has also been taken into account.

In addition, there are specific executive compensation studies prepared by specialized international consulting firms. Specifically, in order to determine the compensation package of its Executive Directors for 2013, the Company has taken the following studies particularly into account: (i) the "Executive Remuneration Guide" of the Mercer consulting firm, and (ii) "Comprehensive Market Compensation for Senior Executive Officers," prepared by the Towers Watson consulting firm.

Below is a detailed description of each of the items making up the compensation of the Executive Directors of Telefónica:

2.1 Fixed Compensation

The portion of compensation that is determined according to the competitive level in the reference market and to the individual contribution of the Executive Director.

2.2 Variable Short-Term (Annual) Compensation

In order to link the compensation of Executive Directors to the Company's short-term results, strengthen their commitment to Telefónica and promote their performance, a significant portion of the compensation of Executive Directors is variable and is linked to the achievement of objectives established by Telefónica at the beginning of each fiscal year, according to the duties discharged by each of them.

To that end, Telefónica has a short-term variable compensation system in place in which the Executive Directors of the Company participate, under which such Directors may receive, annually and following verification of the achievement of the objectives established at the beginning of each fiscal year, a specified percentage of their annual fixed compensation.

For the current fiscal year 2013, the amount of the short-term variable compensation that the Executive Directors of Telefónica could receive, within the limits described above, will be determined by the level of achievement of a number of objectives that ensure a balance between the financial and the operating aspects of the management of the Company, as follows:

- OIBDA (Operating Income Before Depreciation and Amortization);
- Operating Revenue;
- Operating Cash Flow; and
- Level of satisfaction of the Group's customers.

The conditions of the annual variable compensation system applicable to Executive Directors, including the structure and maximum levels of compensation, the objectives established and the weight of each are reviewed by the Company on an annual basis in accordance with its strategy and needs and the situation of the business.

2.3 Variable Medium- and Long-Term Compensation

In order to foster the retention and motivation of Executive Directors and their alignment with the creation of value for the shareholders of Telefónica in a sustained fashion over time, the Company has a variable compensation policy that consists of the delivery of Telefónica shares linked to the achievement of medium- and long-term goals.

This policy provides for the delivery to the participants selected for that purpose (executive officers of Telefónica and other companies of the Telefónica Group, including Executive Directors) of a specified number of shares of Telefónica as variable compensation upon prior compliance with the requirements established in such policy.

The application of such compensation policy is approved by the shareholders at the General Shareholders' Meeting, who determine the value of the shares used as a reference for the allotment, the maximum number of shares to be allotted to each Director, the duration of such compensation system and such other conditions as they deem appropriate.

As of the date hereof, Telefónica's medium- and long-term variable compensation policy is implemented through the following plans:

- The Performance Share Plan (PSP), approved by the shareholders at the Ordinary General Shareholders' Meeting of Telefónica held on June 21, 2006, the fifth and last cycle of which began in 2010 and will end in 2013.
- The Performance & Investment Plan (PIP) approved by the shareholders at the Ordinary General Shareholders' Meeting held on May 18, 2011, to replace the PSP, the first cycle of which began in 2011 and will end in 2014, and the second cycle of which began in 2012 and will end in 2015.

The main features of both plans are described below:

2.3.1 Performance Share Plan (PSP)

The Performance Share Plan (PSP) is a long-term incentive plan of five cycles of three years each, consisting of the delivery to the participants therein, upon prior compliance with the requirements set out in the Plan, of a specified number of shares of Telefónica as variable compensation.

At the beginning of each cycle, each participant is assigned a maximum number of shares at the Company's discretion. In principle, the delivery of the shares is contingent upon continued employment of the participant by Telefónica during the three years of each cycle, as well as upon achievement of the objective established in the Plan.

The specific number of shares to be delivered to the participant at the end of the cycle is obtained by multiplying such maximum number by the achievement level reached at the end of such cycle. The achievement level is determined by means of the Total Shareholder Return (TSR), which makes it possible to measure the performance of a company on the basis of the value created for the shareholders through the change in the listing price of its shares and the dividends generated.

The performance of Telefónica's TSR throughout each cycle of the PSP is compared to TSR performance at the companies included in the FTSE Global Telecoms Index during the same period, according to the following ranges:

TSR percentile range / TELEFÓNICA TSR percentile	Plan Objective (% of allotted shares that are vested)
Below the median	0%
Median	30%
Upper quartile	100%

If Telefónica's TSR stays between the third quartile of the comparison group and the median, a linear interpolation will be made, and if it is below the median, no shares will be delivered.

In fact, no shares were delivered following the end of the fourth cycle of the PSP (2009-2012) in July 2012.

As of the date of this Report, the PSP is in its fifth cycle (2010-2013), which began on July 1, 2010, and the delivery of the shares, if any, to each participant on the basis of the TSR achievement level will take place beginning on July 1, 2013.

2.3.2 Performance & Investment Plan (PIP)

The Performance & Investment Plan (PIP) is a long-term incentive plan of three cycles of three years each, consisting of the delivery to the participants therein, upon prior compliance with the requirements and conditions established therein, of a specified number of shares of Telefónica as variable compensation.

Such Plan was approved by the shareholders at the Ordinary General Shareholders' Meeting held on May 18, 2011, in order to bring the interests of participants into line with those of the shareholders of the Company, promote the acquisition of equity interests therein and foster the retention of its executive officers, as a result of the conclusion, during fiscal year 2013, of the last cycle of the PSP described above.

At the beginning of each cycle, the Company determines, at its sole discretion, the number of shares that may be delivered to participants under the Plan, subject to the established maximum number.

In order to foster the creation of value for the shareholders by strengthening the alignment between their interests and those of the management team of Telefónica, the PIP includes, as an innovation with respect to the PSP, the possibility of "co-investment." This means that, for each of the cycles of the PIP, participants who acquire a specific number of shares established prior to the beginning of each cycle and maintain such status as Telefónica shareholders during the effectiveness thereof, on the terms and conditions established in the Plan, will increase their initial allotment of shares for such cycle by 25%.

The delivery of the allotted shares, including those, if any, deriving from the aforementioned "co-investment," is contingent upon attainment of the level of achievement of the objective established in the Plan as well as, in principle, upon the continued employment of the participant by Telefónica during the three years of such cycle.

The level of achievement will be measured and determined by means of the TSR. Changes in Telefónica's TSR throughout each cycle of the PIP will be compared to the changes in TSR at the companies included on the Dow Jones Sector Titans Telecom Index during the same period, in accordance with the following ranges:

TSR percentile range / Telefónica TSR percentile	Plan Objective (% of allotted shares that are vested)
Below the median	0%
Median	30%
Upper quartile	100%
Upper decile	125%

If the Company's TSR is between the median and the upper decile of the comparison group, vesting will be linear and prorated between the relevant points. Intermediate points will be calculated by linear interpolation.

As of the date of this Report, the following cycles of the PIP are in effect:

→ First cycle (2011-2014): it began on July 1, 2011, and the delivery of the shares, if any, to which each participant is entitled on the basis of the level of achievement of the TSR will take place beginning on July 1, 2014.

→ Second cycle (2012-2015): it began on July 1, 2012, and the delivery of the shares, if any, to which each participant is entitled on the basis of the level of achievement of the TSR will take place beginning on July 1, 2015.

The third and last cycle of the PIP (2013-2016) will begin in the current fiscal year 2013, and the delivery of the shares, if any, to which each participant is entitled will take place beginning on July 1, 2016.

2.4 Benefits

As part of their in-kind compensation, Executive Directors have the following benefits, which are in line with current market practices:

- General health insurance and dental coverage, in line with the benefits enjoyed by the other employees of the Telefónica Group.
- Life insurance with death or disability coverage that is also in line with the benefits enjoyed by the other employees of the Telefónica Group.
- Pension/Retirement Plan: Executive Directors participate in the General Pension Plan for employees of the Telefónica Group (the "Pension Plan").

Furthermore, in order to supplement the current Pension Plan, an Executive Officer Benefit Plan (Retirement Plan) was approved in 2006 in which Executive Directors participate. Under such Plan, Telefónica makes contributions calculated on the basis of a percentage of the fixed compensation of each executive officer, which varies according to their professional level in the organization of the Company, and that such executive officers may receive, on the terms and conditions established in the Plan, in the instances expressly established in applicable legal provisions governing pension plans and pension funds.

2.5 Other Compensation

In order to strengthen Telefónica's status as a global employer, creating a common compensation culture across the Company, promote the acquisition of equity interests by all employees of the Group and foster their motivation and loyalty, the shareholders at the Ordinary General Shareholders' Meeting of the Company held on June 23, 2009 approved the implementation of a Telefónica incentive share purchase plan for all employees of the Group at the international level (including executive officers and Executive Directors) known as "Global Employee Share Plan" ("GESP").

Through this Plan, employees are offered the possibility of acquiring Telefónica shares during a maximum period of twelve months, and the Company undertakes to deliver to them, without charge, a number of shares equal to the number acquired, provided certain requirements are satisfied.

The employees participating in the Plan may acquire Telefónica shares by means of monthly contributions of up to 100 euros (or the equivalent thereof in domestic currency), subject to a maximum amount of 1,200 euros and a minimum amount of 300 euros over a twelve-month period (purchase period). If the employee remains at the Telefónica Group and retains the shares for one additional year as from the end of the purchase period (vesting period), the employee will be entitled to receive one free share for each share acquired and held through the end of the vesting period.

Following the success of the GESP and as a result of the termination thereof, the shareholders at the Ordinary General Shareholders' Meeting of the Company held on May 18, 2011, approved a new edition of such

Plan, on the same terms and conditions as the previous one, which the Company implemented during fiscal year 2012.

The Executive Directors of the Company were invited to participate in the two editions of the GESP, on the same terms and conditions and with the same limitations on contributions to the Plan as all other employees of the Group, in order to maximize the success thereof, with which the Company promoted the participation of the employees of the Group and encouraged them to show their confidence in the performance of Telefónica's shares.

2.6 Basic Terms of the Contracts of Executive Directors: Termination, Non-competition and Exclusivity Agreement

The contracts of Executive Directors and some of the members of the Company's management team in general provide that they will be entitled to receive the financial compensation described below in the event of termination of the relationship for a reason attributable to the Company, and in some cases also due to the occurrence of objective circumstances, such as a change of control in the Company.

Conversely, if the relationship is terminated because of a breach attributable to the Executive Director, or because of his/her own free decision, s/he shall not be entitled to any compensation.

However, it should be noted that, in certain cases, the compensation that Executive Directors are entitled to receive under their contract does not result from the application of these general standards, but rather depends on their personal and professional circumstances and on the time when the contract was signed.

The financial compensation agreed in the event of termination of the relationship, where appropriate, consists of a maximum of three times annual salary and an additional annual salary amount according to length of service at the Company. Annual salary amounts consist of the last fixed compensation and the arithmetic mean of the sum of the last two annual variable compensation payments received pursuant to their contract.

The contracts executed with Executive Directors include a non-competition agreement. Such agreement provides that, upon termination of the respective contract and for the term of the agreement, the Executive Director may not render services, directly or indirectly, for his/her own account or on behalf of others, personally or through third parties, to Spanish or foreign companies whose business is the same as or similar to that of the Telefónica Group.

The above-mentioned agreement not to compete has a duration of one year following termination of the contract for any reason. There is an exception in the event of dismissal that is wrongful or void and without reinstatement, so declared by a final court decision, arbitration award or administrative ruling without the possibility of appeal, in which case the Executive Director shall be released from the agreement not to compete.

The contracts with the Executive Directors also prohibit, during the term thereof, the signing (whether personally or through intermediaries) of other employment, commercial or civil contracts with other companies or entities carrying out activities similar in nature to those of the Telefónica Group.

Finally, the contracts executed with the Executive Directors provide that their employment relationship is compatible with the holding of other representative and management positions and with other professional situations in which the Director may be engaged at other entities within the Telefónica Group or at any other entities unrelated to the Group with the express knowledge of the Board of Directors of Telefónica or of the Chairman thereof.

III. Expected compensation policy for future fiscal years

As of the date of this Report, no significant changes are expected in the application of the Director compensation policy described in section II above.

Nevertheless, within the framework of its policy of continuous review of the Company's corporate governance system, the Board of Directors believes that the Company should have a Director compensation policy that is appropriate for the circumstances prevailing at any time, paying particular attention to changes in laws and regulations, best practices, recommendations and trends—both at the domestic and at the international level—in connection with the compensation of directors of listed companies and the conditions of the market.

In the specific case of Executive Directors, in the future the Company intends to continue to apply a policy that provides for a combination of fixed and variable compensation, to be determined in accordance with the principles described in sub-section II.C above, i.e., following standards and parameters that will allow for the retention, motivation and commitment of the persons performing executive duties for the Group, that are also aligned with the achievement of the strategic and business objectives established at the Telefónica Group at any time. In this connection, it is expected that in future fiscal years, as the life cycles of current plans are completed, new long-term variable compensation plans for Executive Directors and employees of the Group will be designed and submitted to the shareholders at the General Shareholders' Meeting.

IV. Director compensation during fiscal year 2012: overall summary and breakdown of individual compensation

The features, structure and general standards for application of the Director compensation policy for fiscal year 2012 are basically those described in section II above in connection with the compensation policy for the current year.

Below is a description of some more specific aspects of the application of such policy in fiscal year 2012, including a breakdown of the individual compensation accruing to each Director, both for their activities as such and for the performance of executive duties, where applicable.

1. Compensation of Directors for their Activities as Such

The annual gross maximum amount of the compensation to be received by the members of the Board of Directors in their capacity as such, approved by the shareholders at the Ordinary General Shareholders' Meeting of April 11, 2003, totaling 6 million euros, continued to apply during fiscal year 2012.

As noted in sub-sections II.A and II.C.1 above, it falls upon the Board of Directors to set the overall amount of the compensation to be received by the Directors of Telefónica for serving in such capacity, within the amount mentioned above, as well as to distribute such amount among the Directors.

The compensation of the Directors of Telefónica for serving on the Board of Directors, the Executive Commission and/or the Advisory or Control Committees consists of a fixed amount, payable monthly, and of fees for attending the meetings of the Advisory or Control Committees.

For fiscal year 2012, such amount totaled 4,001,151 euros.

In fiscal year 2012, such overall amount was distributed among the Directors in accordance with the same standards approved by the Board in 2007, mentioned in sub-section II.C.1 above. However, at its meeting held on July 25, 2012, the Board of Directors of the Company resolved to reduce by 20% the amounts received by the members of such Board in their capacity as such.

Below is a description of such standards:

1.1 Fixed Amount

Set forth below are the amounts established as fixed compensation for sitting on the Board of Directors, the Executive Commission and the Advisory or Control Committees of Telefónica:

→ A fixed amount, stated in annual terms, applicable until the Board of Directors approved a 20% reduction in such amount at its meeting of July 25, 2012:
