

Attn: United Nations Global Compact Initiative

From: Dr. Ognian Donev  
CEO  
Sopharma Pharmaceuticals  
Sofia, Bulgaria

Date: July 6, 2007

Dear Sirs,

Sopharma Group is one of the leading pharmaceutical producers and public companies in Bulgaria. As such, the company continuously seeks better ways for communicating and connecting with its stakeholders. The Global Compact initiative – a backbone for a company member of the global family - provides a thriving environment for our management to learn and share ideas with leading international organizations of all sizes and industries.

We have incorporated the Global principles in all levels of our company – as values, as practical plans and programs and as specific actions.

We would hereby like to state that Sopharma Pharmaceuticals intends to continue supporting the Global Compact in the future and that it has taken action to further develop its social and ecological programs that work to the benefit and interest of all of our stakeholders.

Sincerely yours,

Ognian Donev, PhD  
CEO  
Sopharma Pharmaceuticals
