RE: statement of continued support of the UN *Global Compact*

Since Continental Forest Ltd. has been established, it was our goal to act in a responsible manner.

We consider Global Compact to be a credible and reputable framework for structuring our efforts within the four areas it addresses. By joining Global Compact, Continental Forests commits to align its operations and strategies with valuable principles in the areas of human rights, labour, environment and anti-corruption. Continental Forests will continue to support Global Compact in the years to come and ensure that we have sufficient focus on the mentioned principles.
